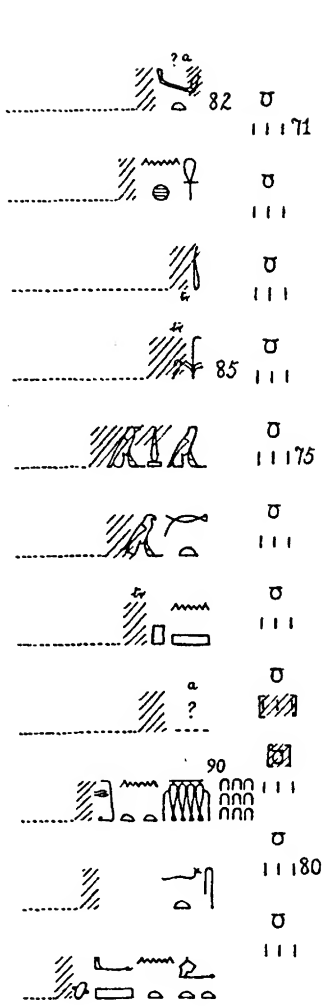
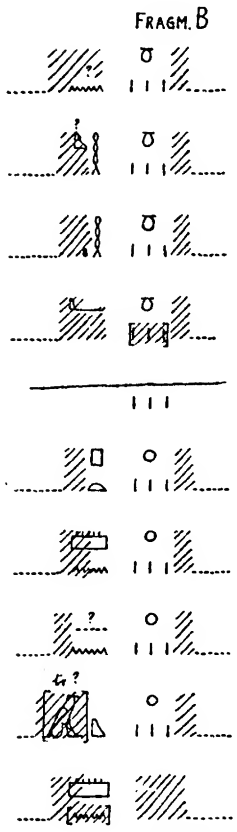
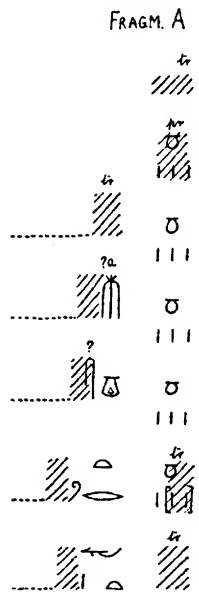
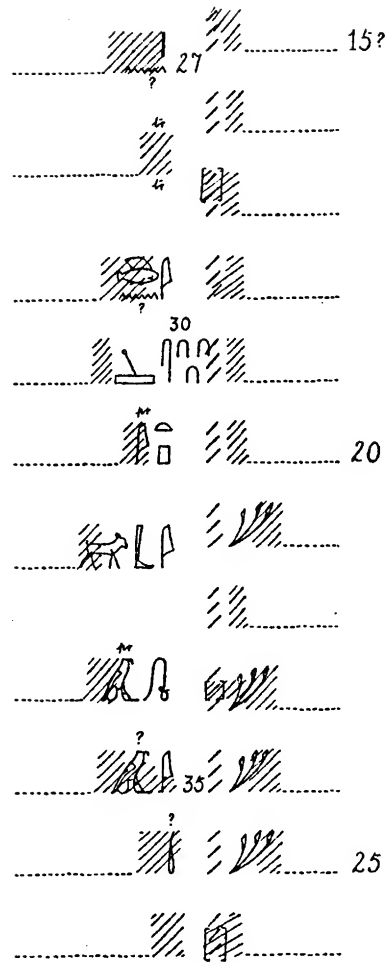
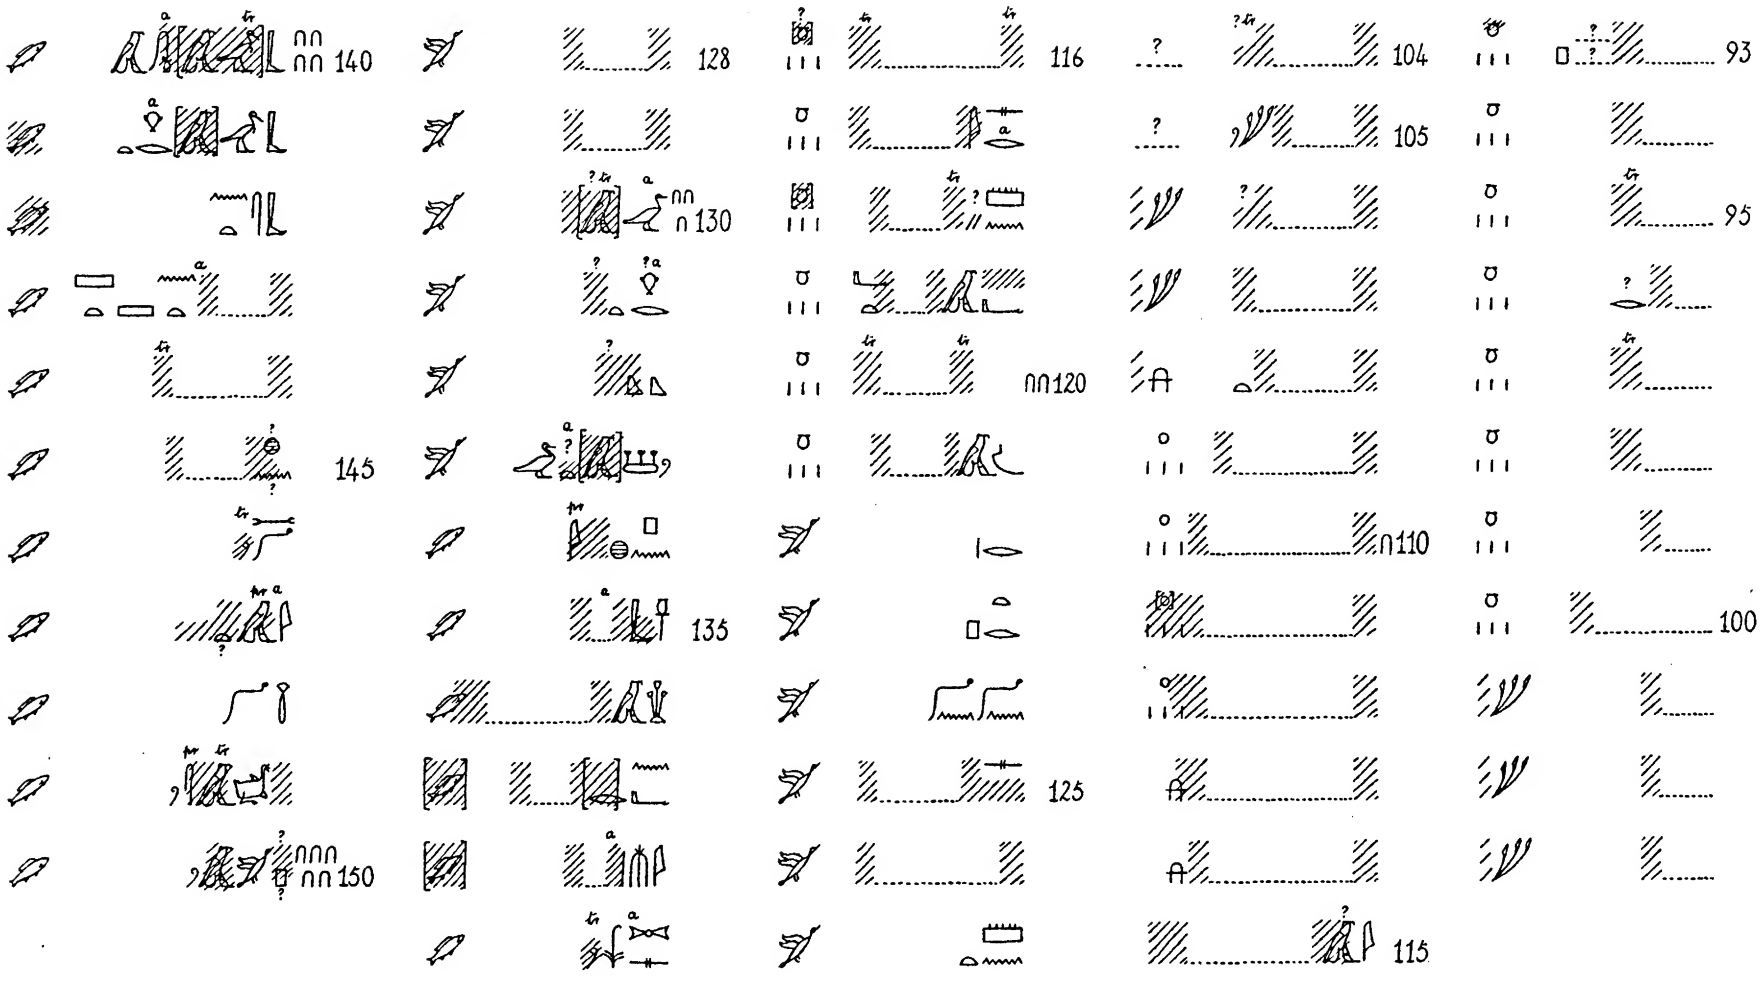
THE RAMESSEUM ONOMASTICON





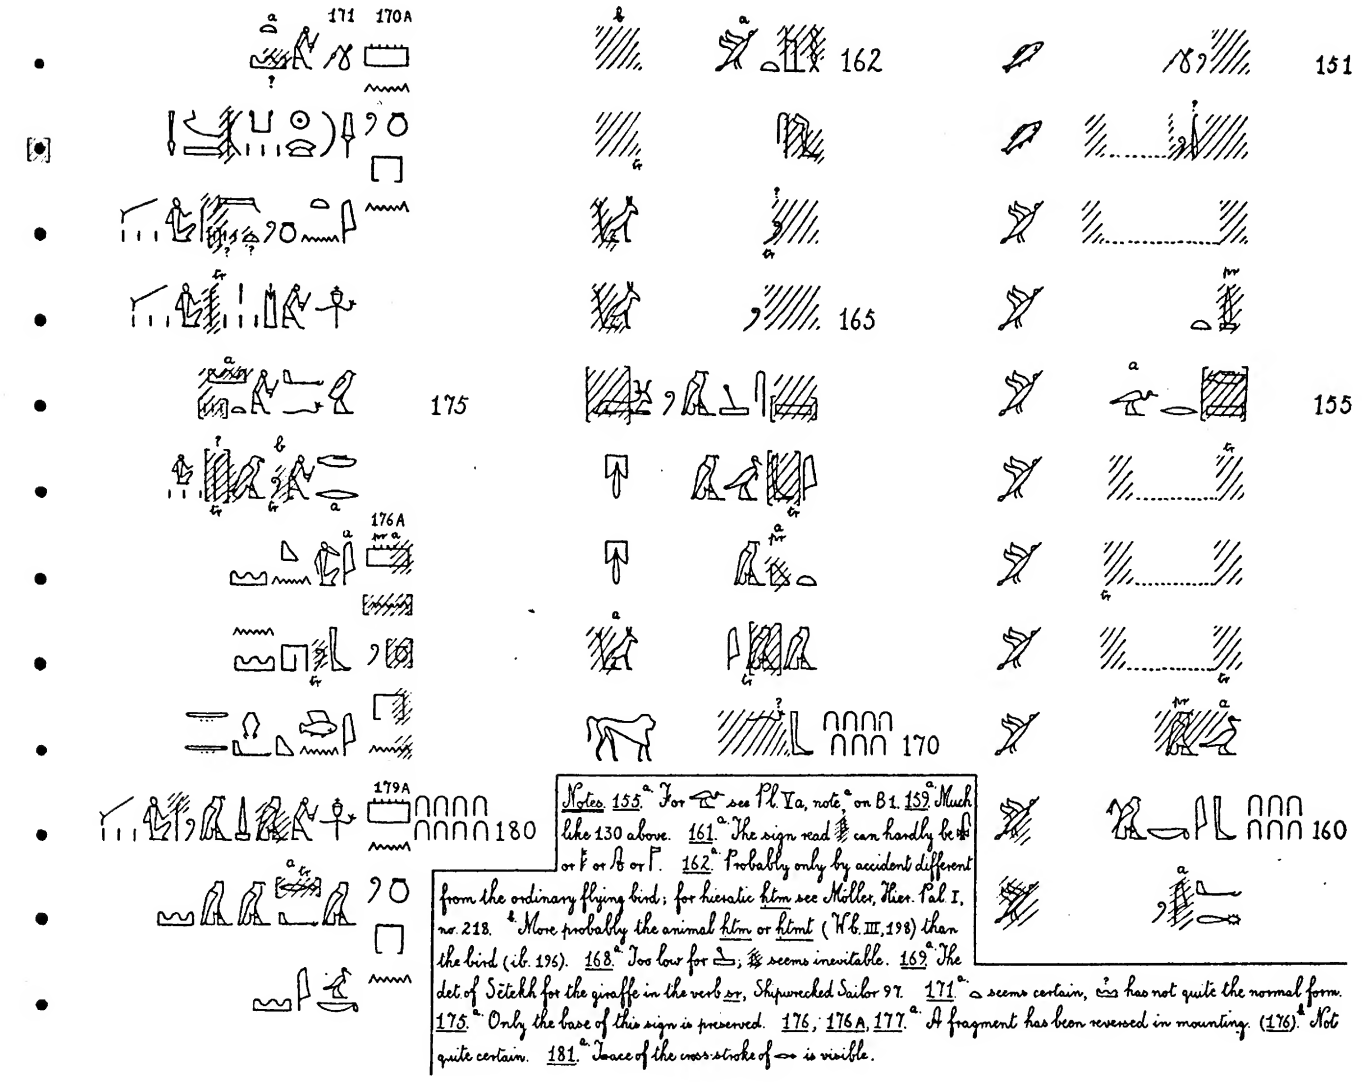






Notes Fragm. A. [a] in 138 has likewise a small hook at the side, as in Sinuhe B 69; the hook is absent, however, in 221 below. 82. [a] See Möller, Hier. Pal. I, no. 107. 89. [a] Hardly . it seems uncertain whether the traces do not belong to one line lower. 117. [a] Or ? 130. [a] Thus, rather than ; a similar entry below 159. 131. [a] Reading doubtful, different from the signs read in 141. 133. [a] Wb. I, 369 gives the word as fem., but the stroke in front of the bird might conceivably be part of it. 135. [a] Probably restore . 138. [a] For the form of see above Fragm. A, note [a]. The following sign is perhaps rather than , but the word can hardly fail to be identical with Amarn. IV, 15, 8. 139. [a] Cf. Černý, Ostr. D. el Medineh, 54, 3. 140. [a] Probably so, for see 234. 141. [a] Unlike the supposed of 131. 143. [a] There seems to have been some displacement in mounting, or else the lines were much crowded together. 147. [a] Here the lower fragment ought apparently to be moved somewhat downwards

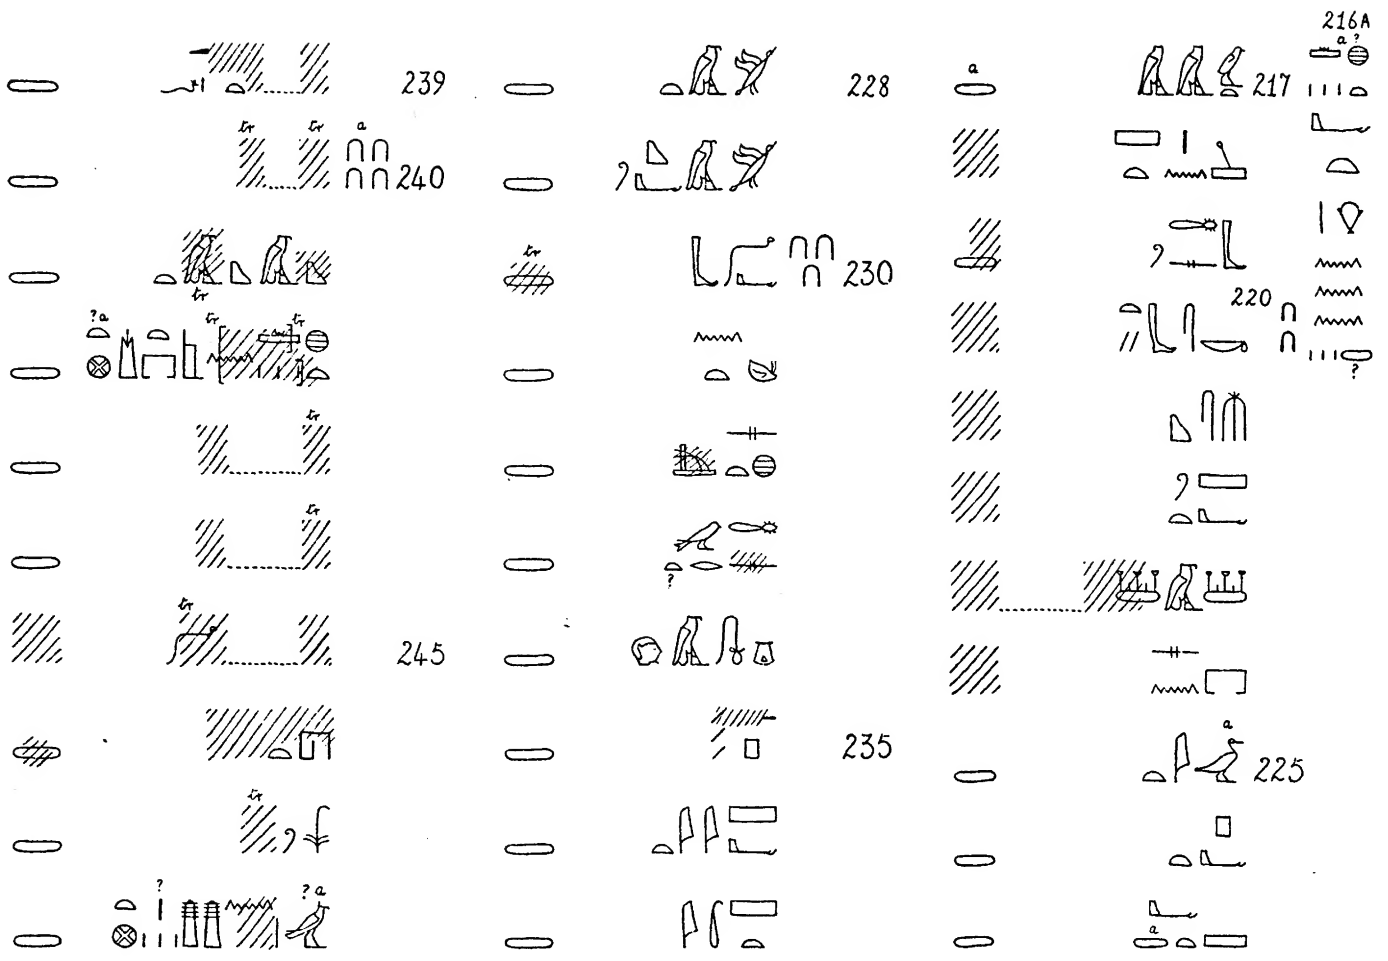
THE RAMESSEUM ONOMASTICON

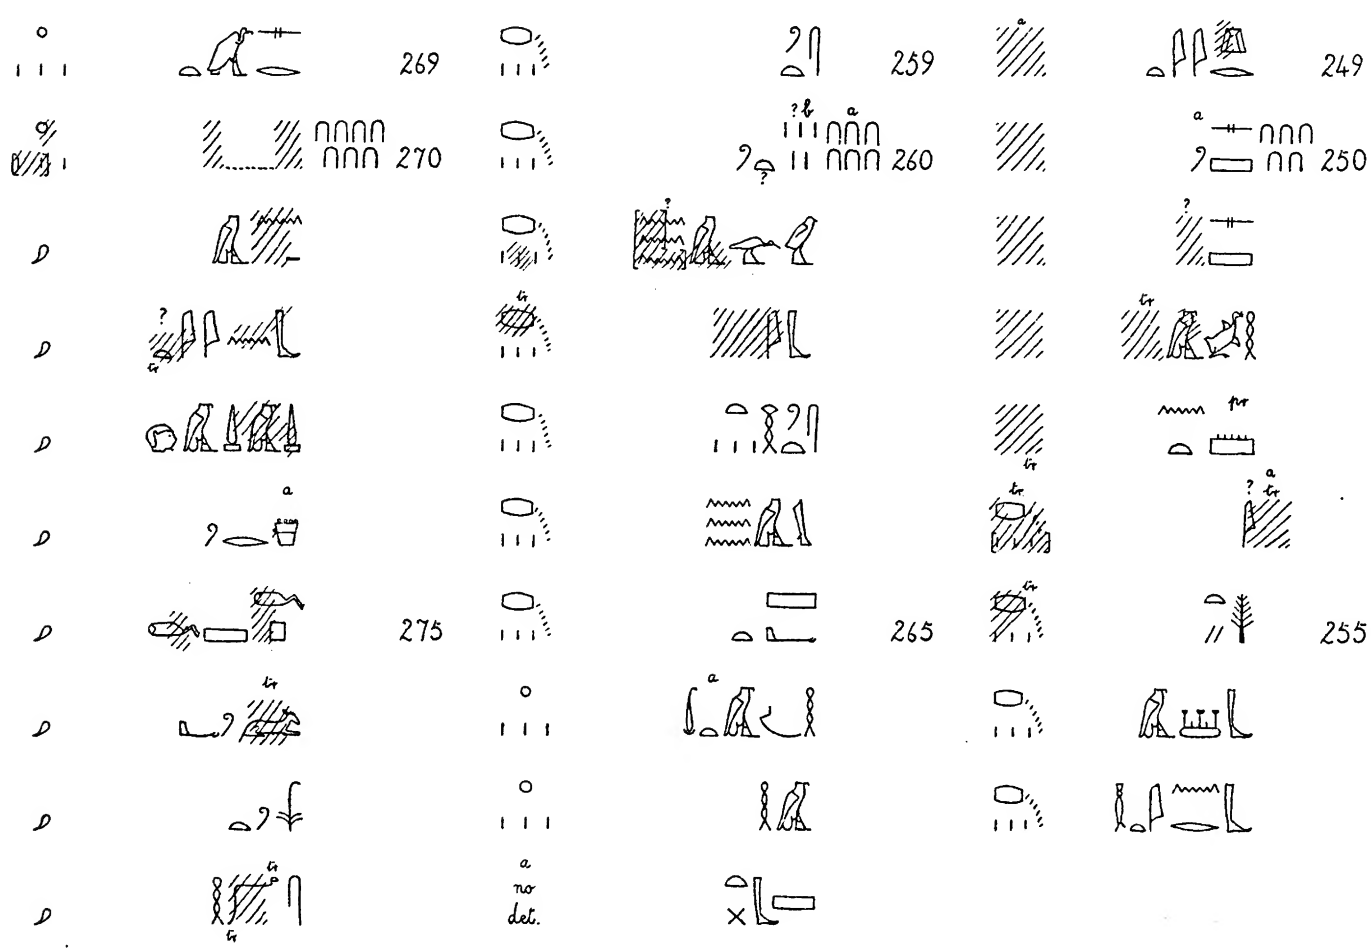


Notes. 155.[a] For 𓂝 see Pl. Ia, note[a] on B 1. 159.[a] Much like 130 above. 161.[a] The sign read 𓅱 can hardly be 𓅱 or 𓃀 or 𓃹 or 𓅓. 162.[a] Probably only by accident different from the ordinary flying bird; for hieratic ḫtm see Möller, Hier. Pal. I, no. 218. [b] More probably the animal ḫtm or ḫtmt (Wb. III, 198) than the bird (ib. 196). 168.[a] Too low for 𓊃; 𓅱 seems inevitable. 169.[a] The det. of Sētekh for the giraffe in the verb 𓃒, Shipwrecked Sailor 97. 171.[a] 𓄡 seems certain, 𓄡 has not quite the normal form. 175.[a] Only the base of this sign is preserved. 176, 176A, 177.[a] A fragment has been reversed in mounting. (176).[b] Not quite certain. 181.[a] Trace of the cross-stroke of 𓎛 is visible.

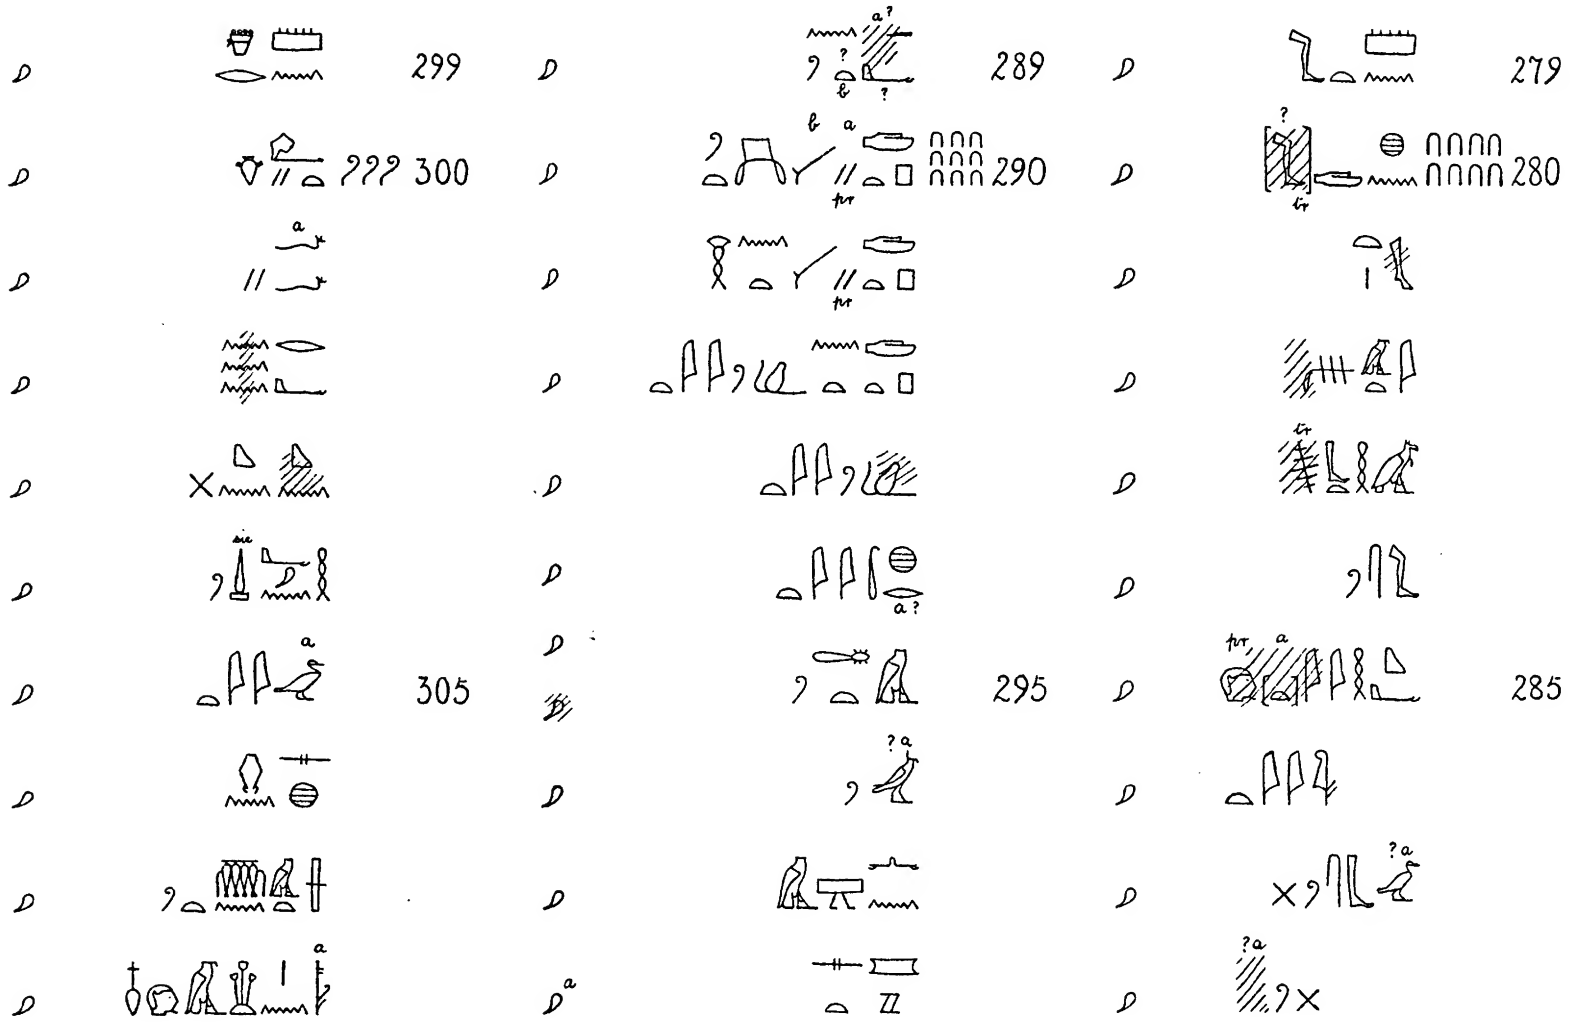
Notes 185.[a] See for the sign below 248. 186.[a] Horizontal and slightly wavy. 192.[a] For this sign see below 308. 193.[a] 𓊪 seems inevitable, but elsewhere 𓊪𓏏𓎛𓊃 is written. 194.[a] See last note. [b] If this sign corresponds to any ordinary hieratic sign, it can only be 𓆑 with 𓈙, see Möll, no. 292; 𓆑, no. 291, and 𓆑, no 443, are practically identical at this period. 196.[a] The sign below 𓂋 is more probably 𓈖 than 𓈙. [b] This sign resembles the det. of nḫt in 319, and is not unlike 𓋴 in 172, neither suits here, and the form does not agree well with 𓄡. 199.[a] Or 𓏛 200.[a] Or a superfluous dot? ⊙ not elsewhere as det. in this list. 201.[a] Reading very uncertain; some fibres are missing from the supposed 𓅱 210.[a] Like the sign at beginning of 130. 216.[a] See Möll., no 467, 𓄿 (cf 166) and 𓃀 are other possibilities; 𓃹, which one might expect here, is palaeographically extremely unlikely, see Möll., no. 433.

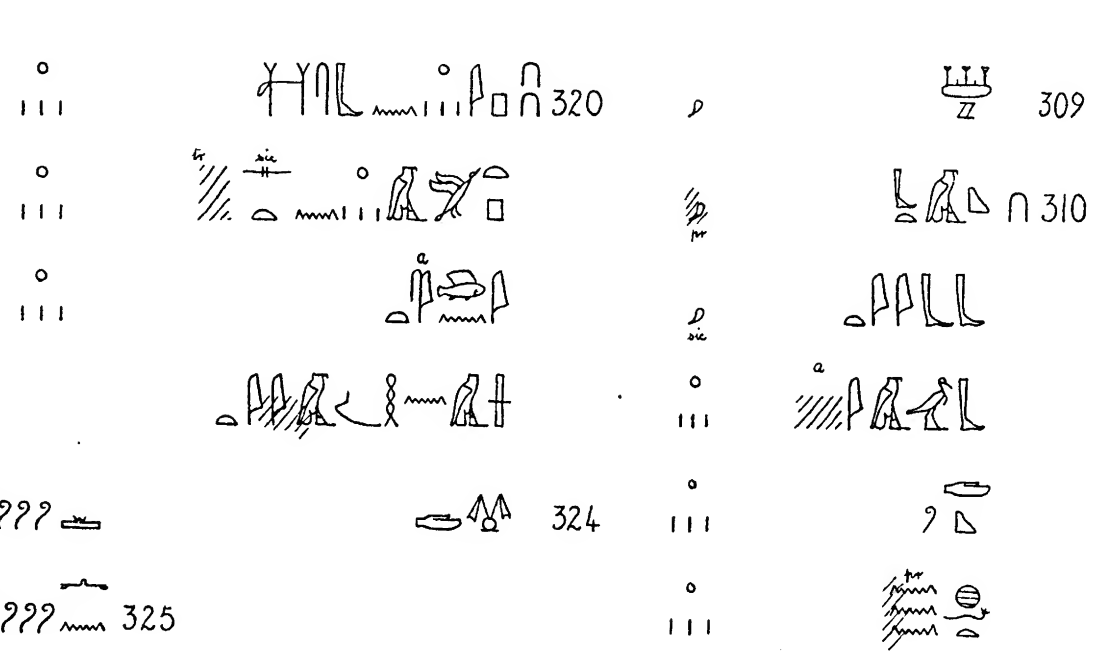
THE RAMESSEUM ONOMASTICON



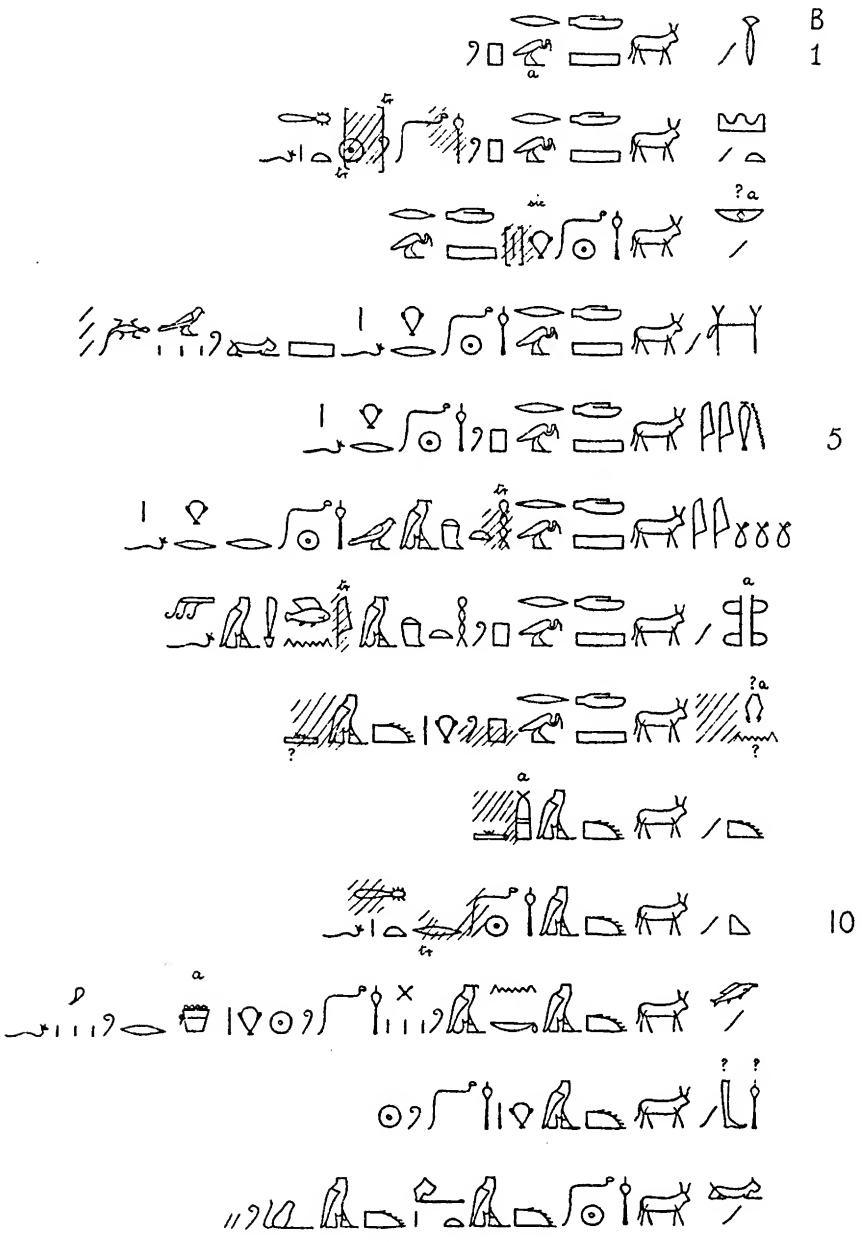


Notes. 216A.[a] ? is quite uncertain. The group looks like , see Möller, Hier. Pal. I, no. 555 B, but the following shows that a feminine is required. 217.[a] For this abbreviated form see Möller, no. 555 footnote. So throughout these three columns. 225.[a] Apparently so; is here impossible. 240.[a] One item is missing between 230 and 240. 242.[a] Exactly like ?, but possibly , see below 266, note.[a] 248.[a] Nearest to Möller, no. 201, *rhyt* but no. 199 *dbt* is also similar; the same sign below in 296. 249.[a] Very possibly is to be restored, since *ḥt*? of 252 is still a kind of bread. 250.[a] Or just possibly , see 242, note[a], 266, note.[a] 254.[a] Before *bdt* (*bty*) one expects , but it is difficult to read this out of the traces here, or to account for these projecting to the right. 260.[a] As between 230-240, one item is missing between 250-260, and is deemed to be 258.[b] Very uncertain, since "I would be expected, as in Sin. B 266; Peas. R 103. 266.[a] Like ?, but here certainly meant; see above 242, note.[a] 268.[a] The dots of this line are badly distributed, only nine being given for ten lines (cf. below 298, note[a]). 274.[a] Properly speaking not merely , but the ligature for , as often in M.Eg., e.g. below 299; so too here in Plate V, B 11.





Notes. 285.a See Wörterb. V 19, and for ⊗ below 308. 287.a The sign seems rather too short and with too large a head for ⊂; still ⊂ is a possible alternative. 288.a Or nothing? 289.a The size of this group points to a ligature (?) such as ⊏ or ⊏. b Or else ? ? But this less likely. 290-1.a Hardly either ⌓ or ?; ? standing alone is a large sign, see 293, 295, 296. b Elsewhere the tongue always bent ⌒, Möller, Hier. Pal. I no. 161; still doubtless meant for this, not the sign for "death", "enemy". 294.a Or ⌓? But for the latter ⌓ might be expected. 296.a Doubtful in the extreme; for the sign see 248, n.a. 298.a Note that in this column ⊃ is written eleven times, though the corresponding number of items is only ten. 301.a For ⊃ // ? "lung"? 305.a Possibly dfȝyt; for the sign cf. Möller, op. cit. no. 219. 308.a Hardly ⌇; for rather similar forms see op. cit. no. 460. 312.a Either nothing or a low sign lost. 319.a One expects ⊏ and there is some resemblance between the sign here and ⊏ in Sinuhe B, see Möller, op. cit. no. 118. A very similar sign above in 196. 322.a The scribe apparently first wrote ⌇ and then corrected this into ⌇.

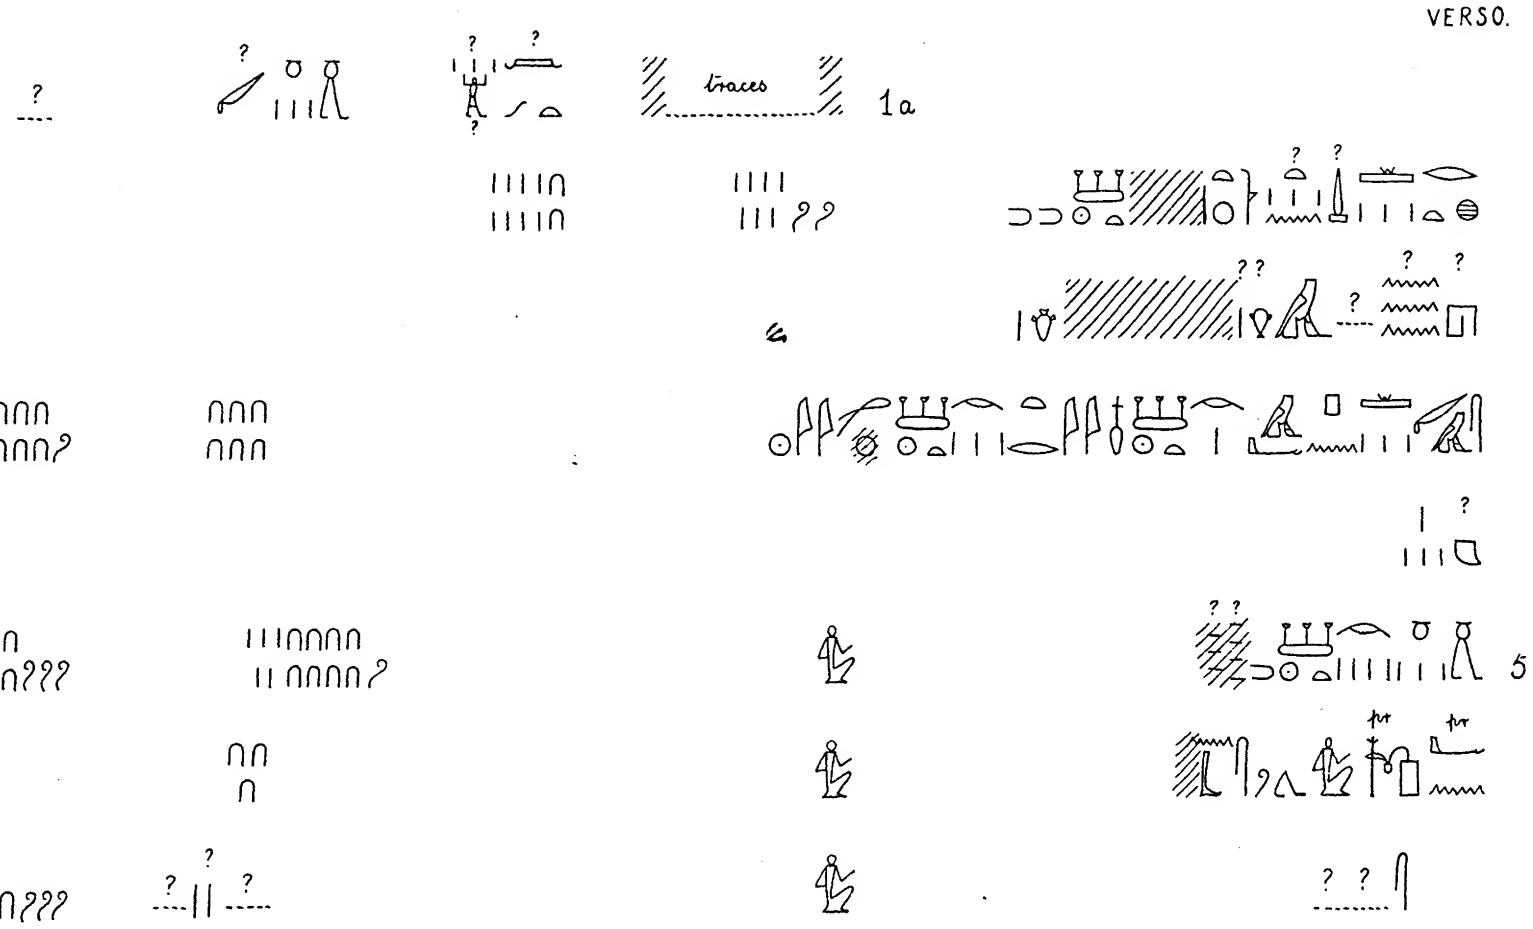


Notes. B1.[a] No exactly similar forms are known, see Möller, Hier. Pal. I, no. 213, but the bird with fish det. of *ḫ3 m* is rather similarly made in the Kahun Pap., see op. cit., no 214. 3.[a] See op. cit., no. 512; or else , op. cit., no. 571. 7.[a] This sign occurs as det. of *ḥt3* "sail", Eloq. Peasant, B1, 56; see op. cit., no. 379, footnote. 8.[a] See above 306 (different 179) but ⊖ and ▽ are also possible. 9.[a] See below B16; palaeographically (op. cit., no. 425), (no. 462), and (no. 590) are all equally possible. 11.[a] See 274, note[a], above. 16.[a] See above B9, note.[a] 19.[a] Cf. B2; or of B13; before there is an unexplained trace.

PLATE VIa

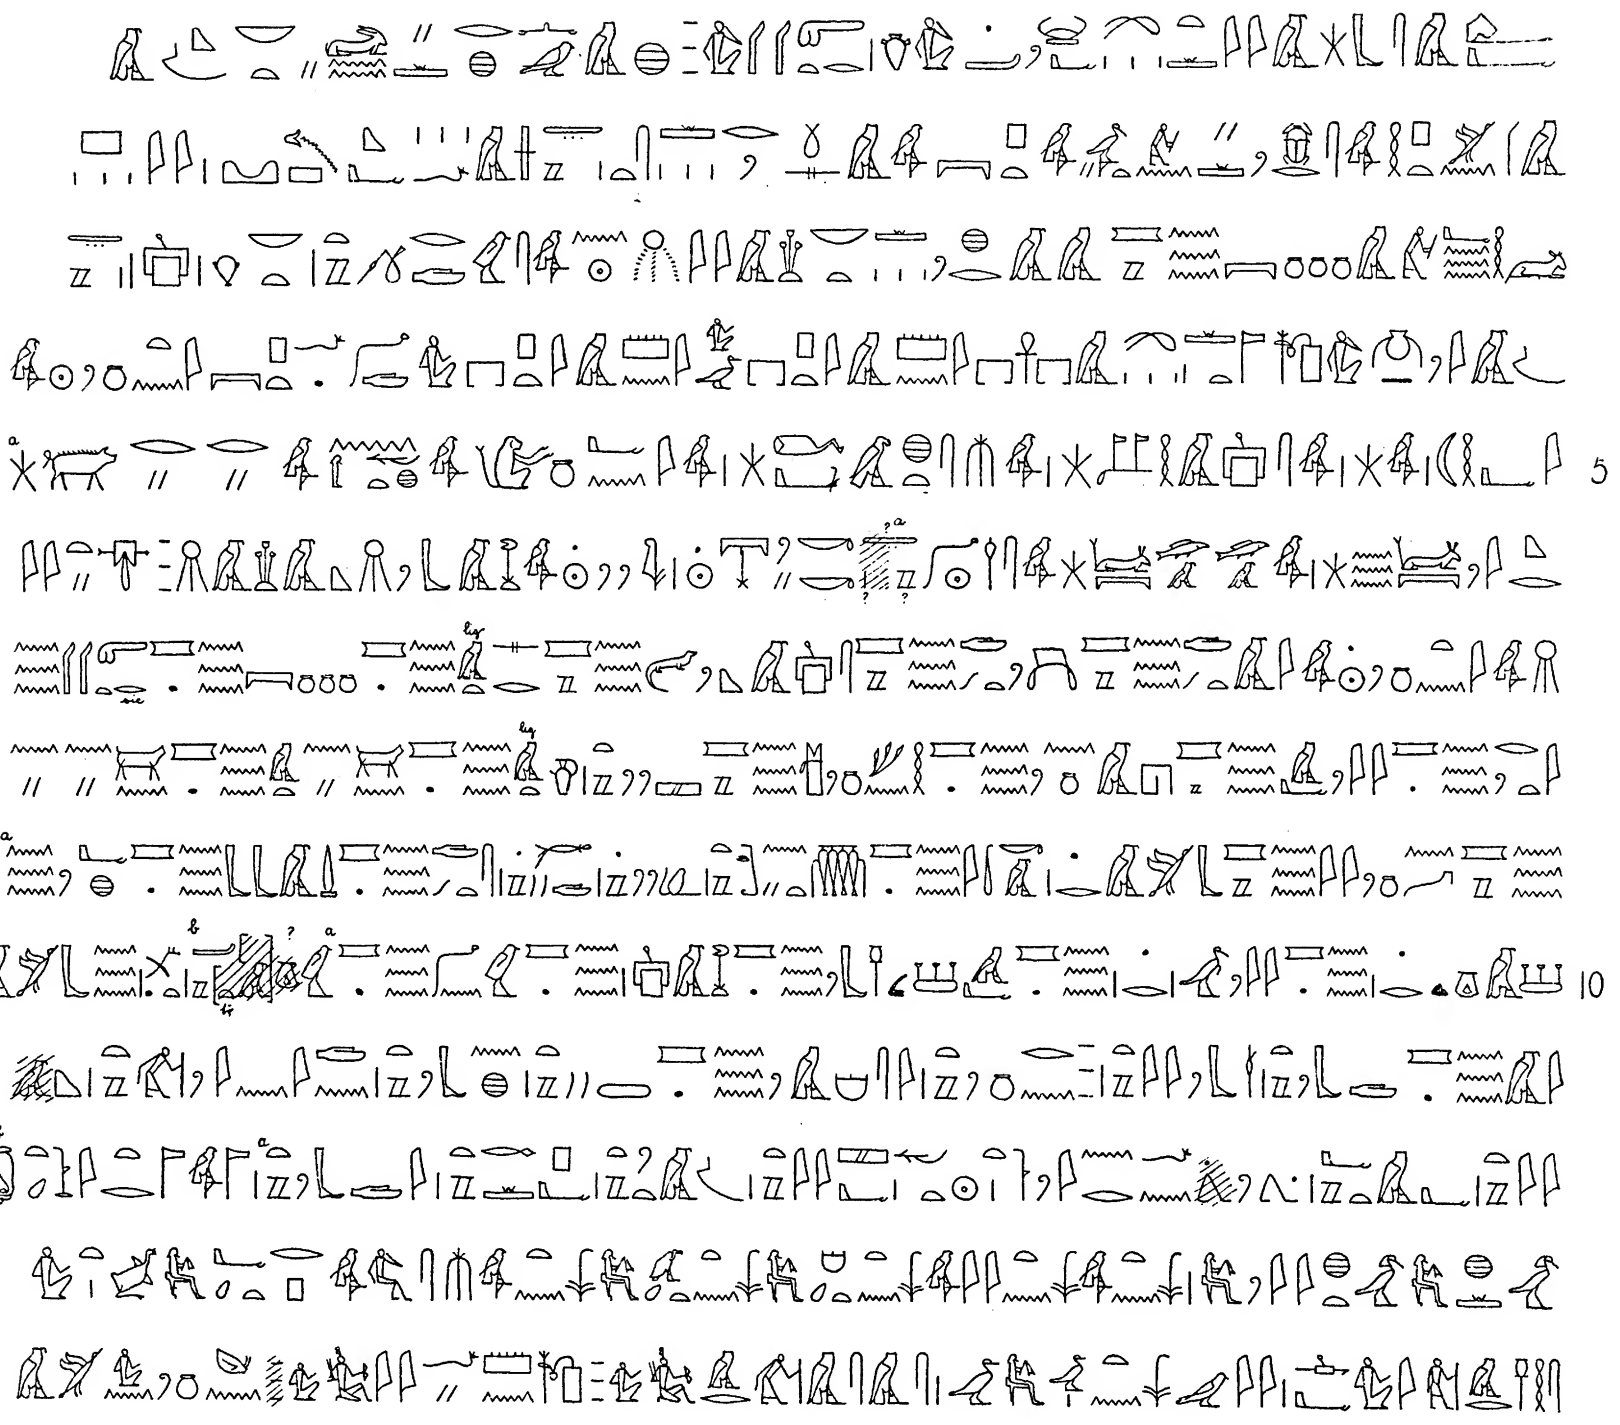
THE RAMESSEUM ONOMASTICON

verso



THE GOLÉNISCHEFF ONOMASTICON

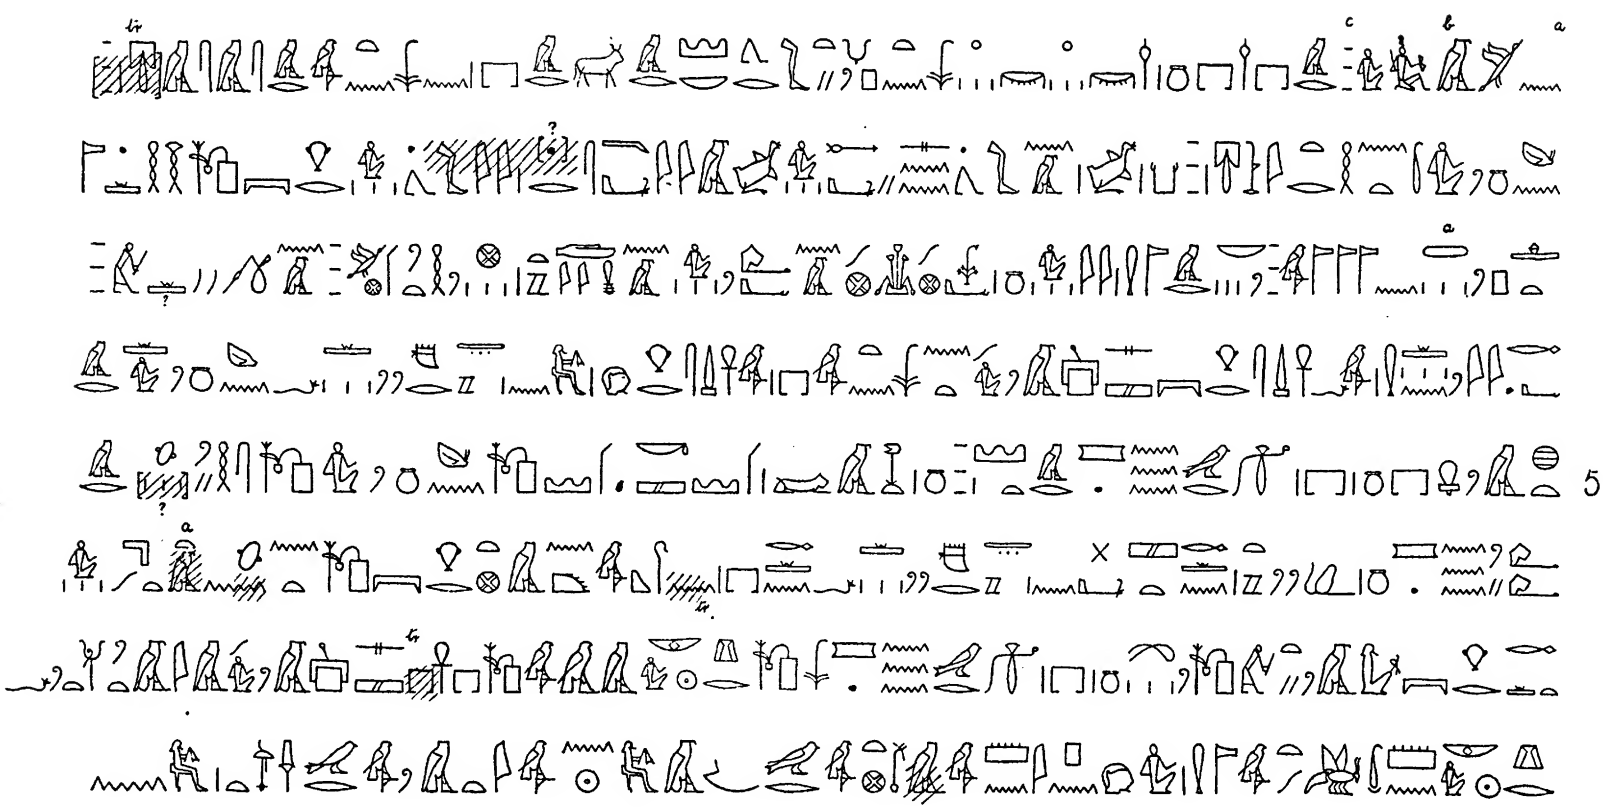
Page 1

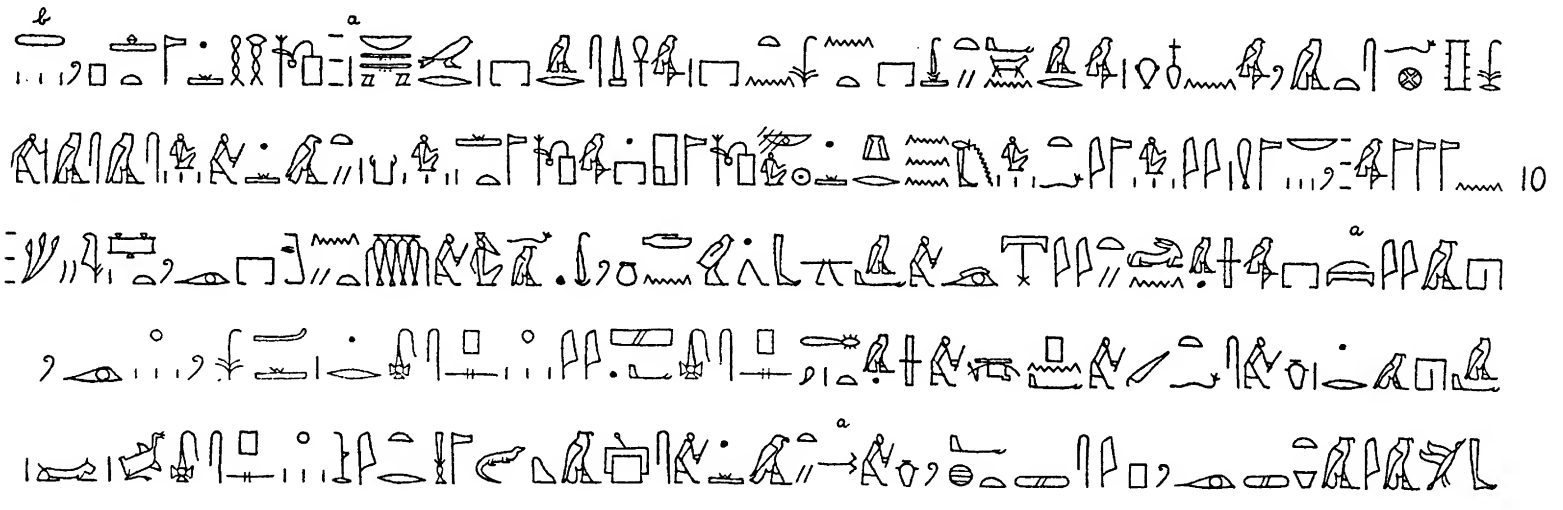


Notes. 1,5.a <𓂋> omitted for lack of space. 1,6.a Very uncertain, but 𓏏𓇋 is found in Hood. 1,9.a <𓏏𓇋> omitted for lack of space. 1,10.a-b. 𓋴 is from Hood, here by no means certain; 𓈙 is elsewhere det. of the stem wg(i), and doubtless to be preferred to 𓈖. 1,12.a-b. Not written in red for superstitious reasons.

THE GOLÉNISCHEFF ONOMASTICON

Page 2

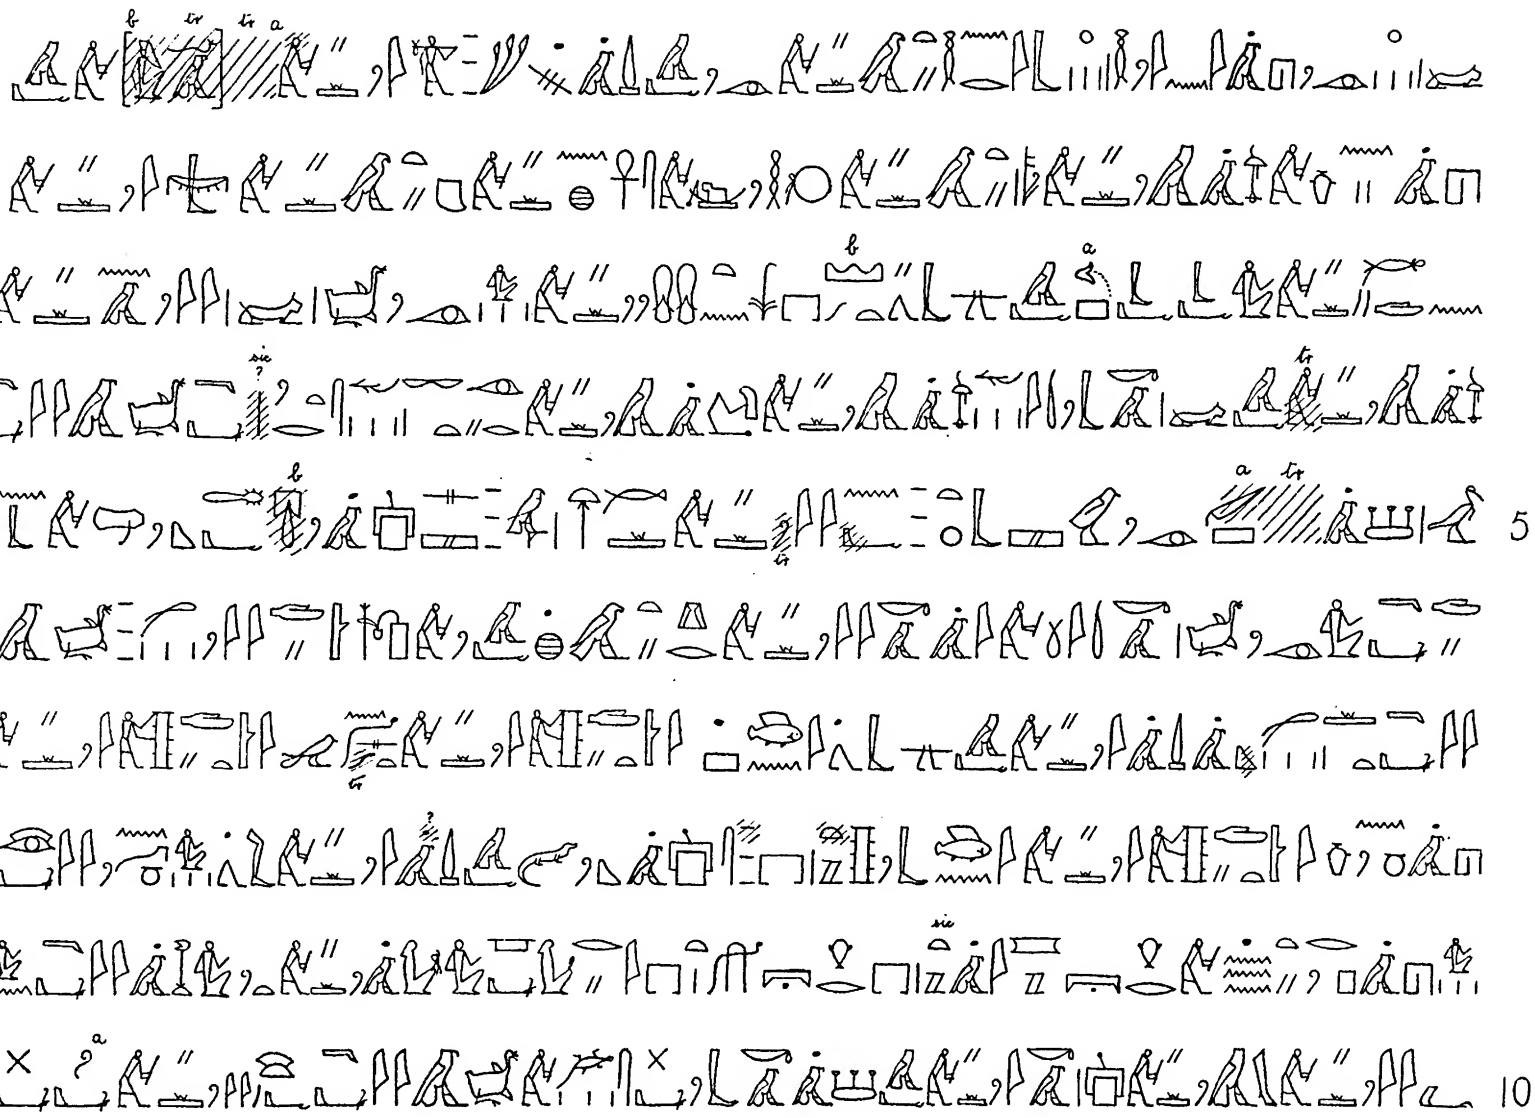


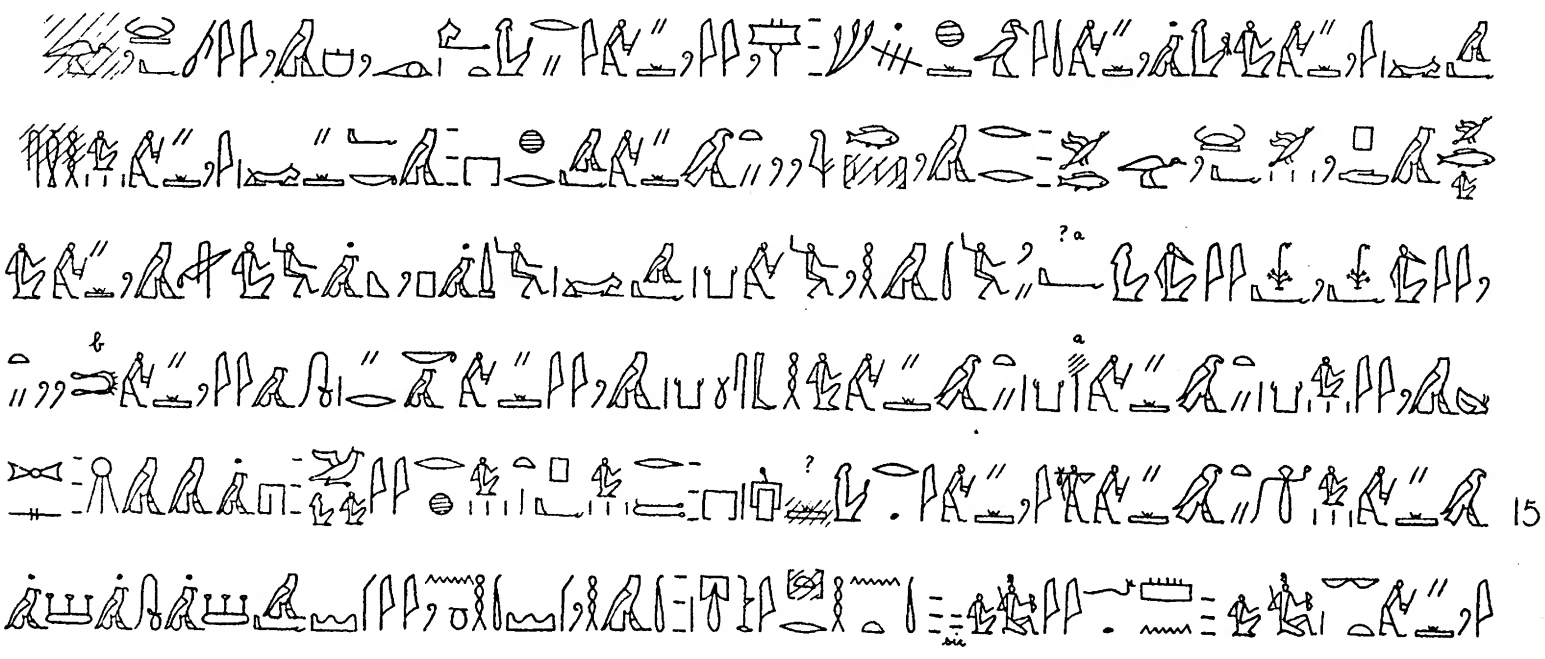


Notes. 2,1 a-b. Dittography. c. Here like 𓏏, but see the intermediate forms in mꜣꜥ mnfyt 1,14. 2,3 a. Or 𓈖. 2,6 a. Or 𓏏? 2,9 a. Apparently so, not 𓂋. b Or 𓈖 but rather different from above 2,3. 2,11 a. Exactly as in Wenamūn, 1,1, in the same title. 2,13 a. For this transcription rather than 𓄡 see Rec. Trav. 39,20.

THE GOLÉNISCHEFF ONOMASTICON

Page 3

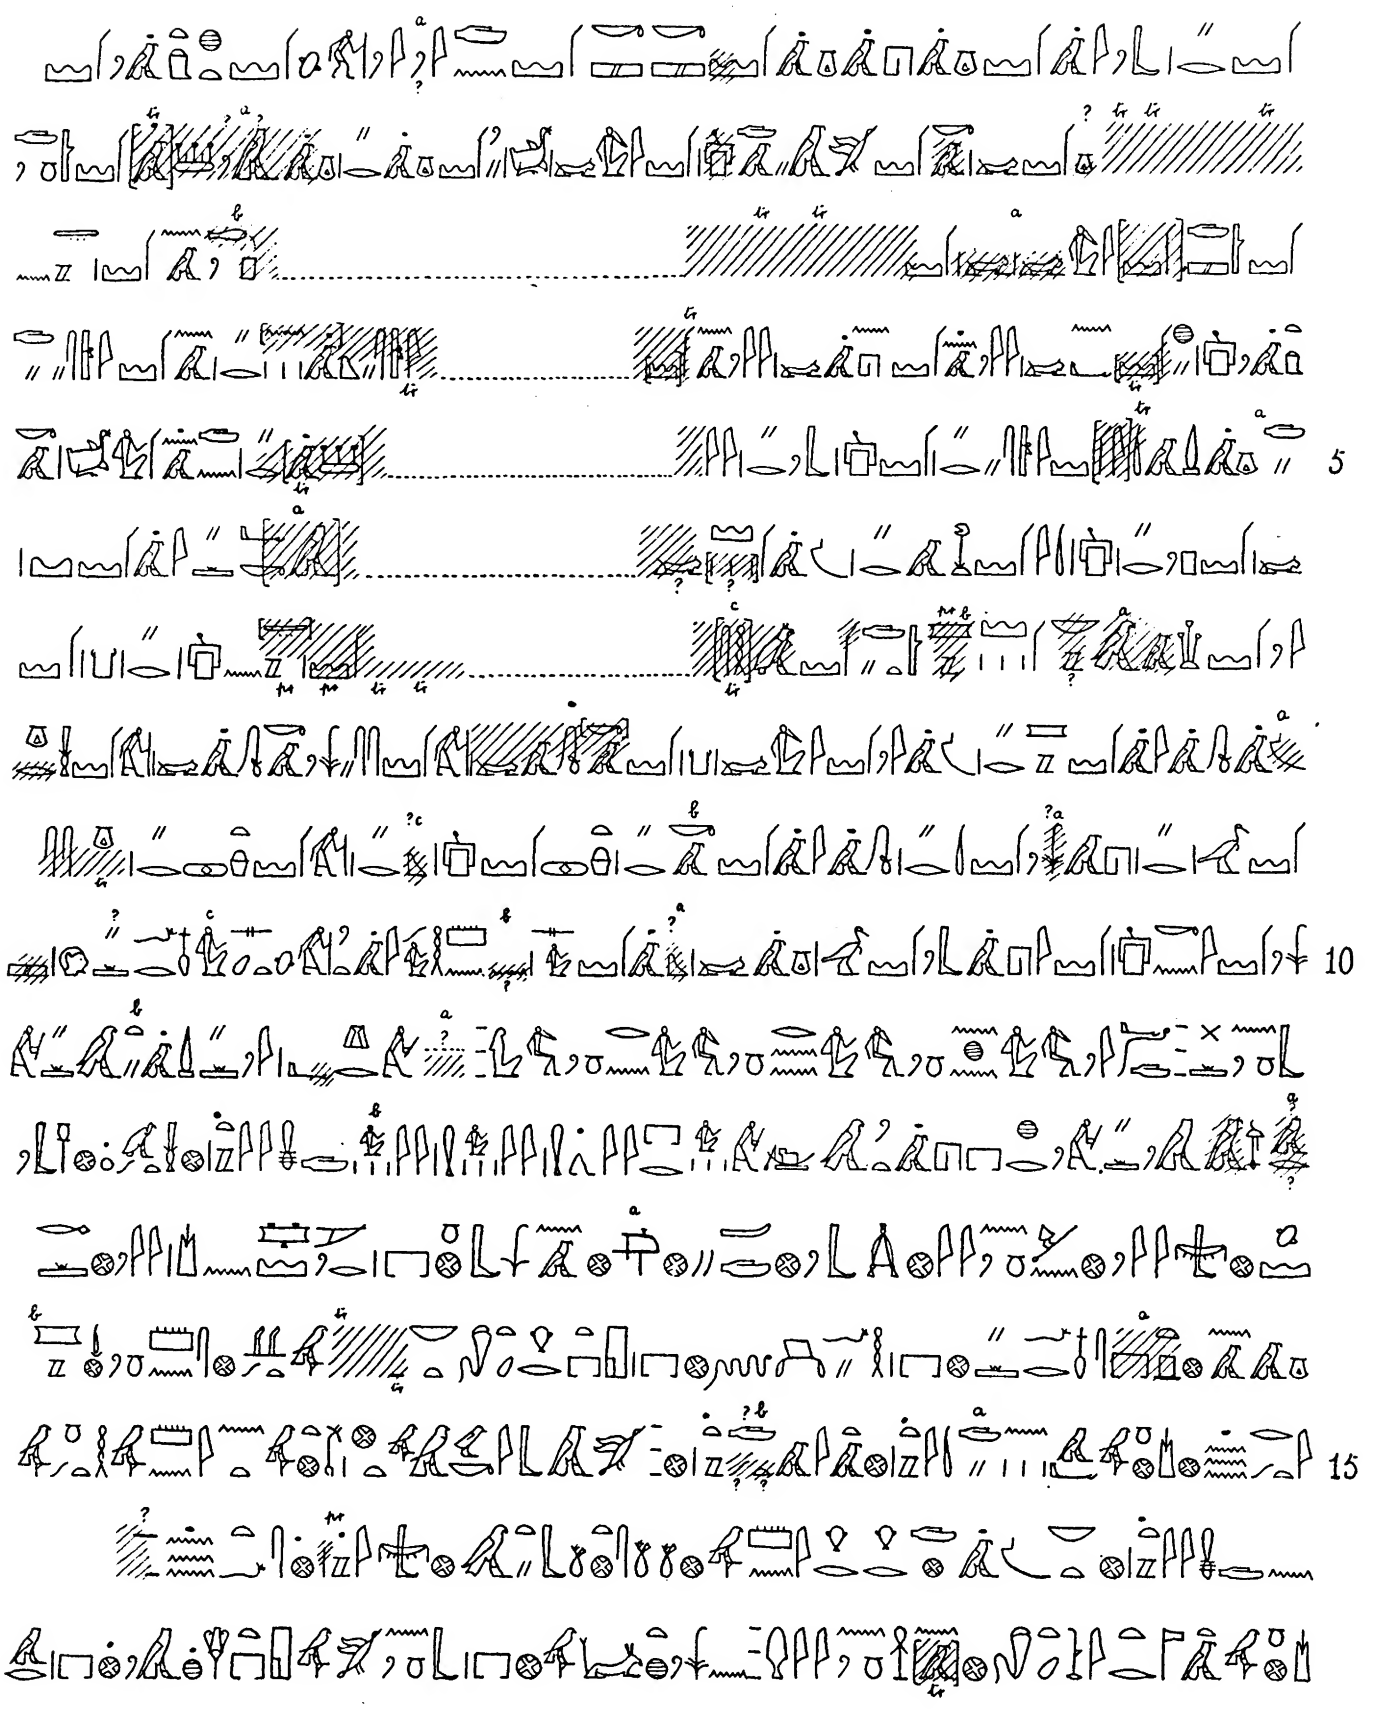




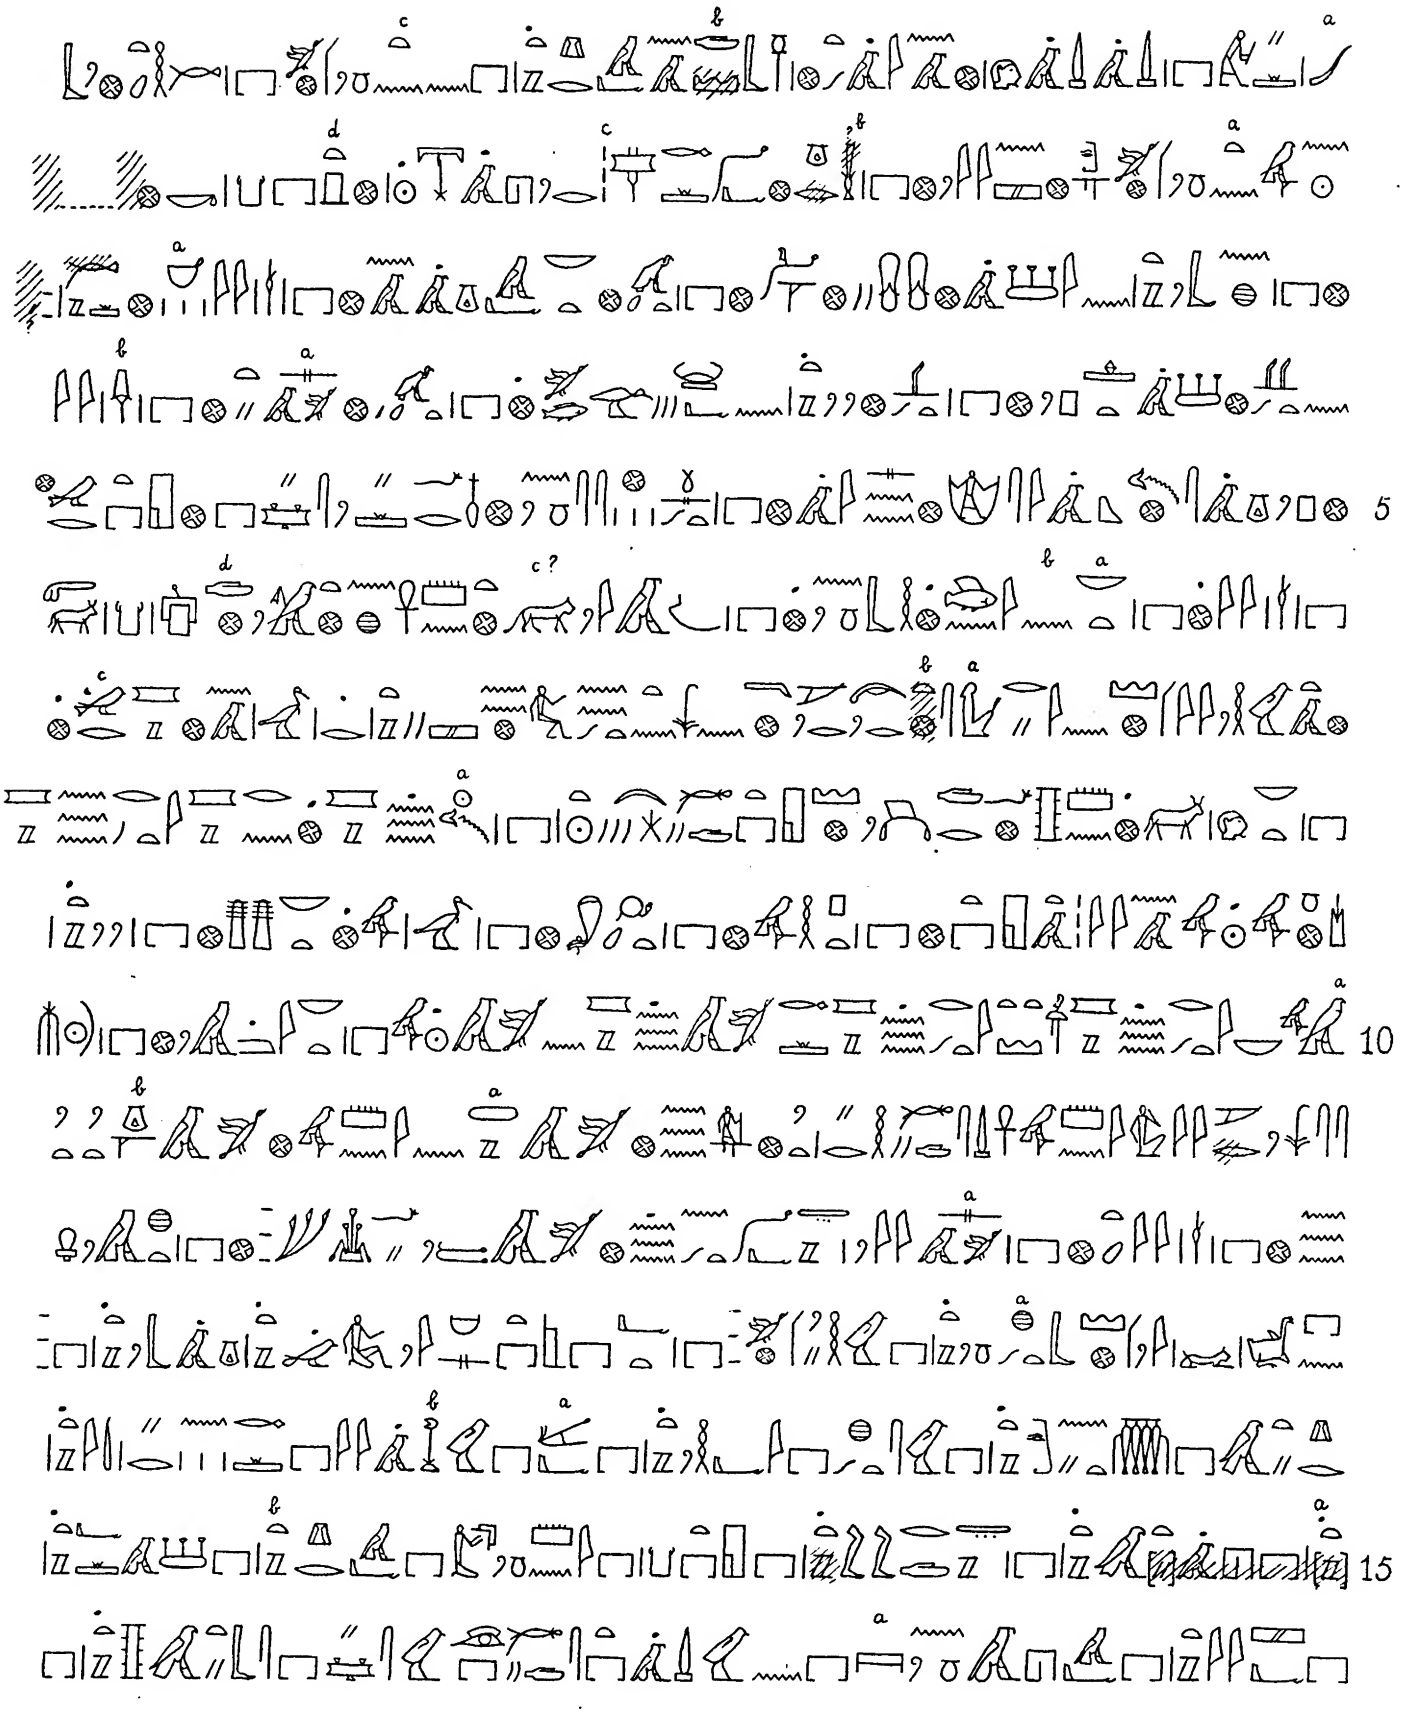
Notes. 3,1 a-b The restoration, for which see Hood and above 2,11, does not fill the lacuna completely. 3,3 a Confirmed by Möller; cf. 1,2. b Corrupt for , see Hood. 3,5 a So too Möll. b Certainly not or ; just possible; so Möll. 3,10 a The transcription of z is probable from Mes N17; for the hieratic of Spiegelberg, Hier. Ostr.,45, fragm. Q. 3,13 a So Möll. 3,14 a Could this injured sign be ? b Or .

THE GOLÉNISCHEFF ONOMASTICON

Page 4



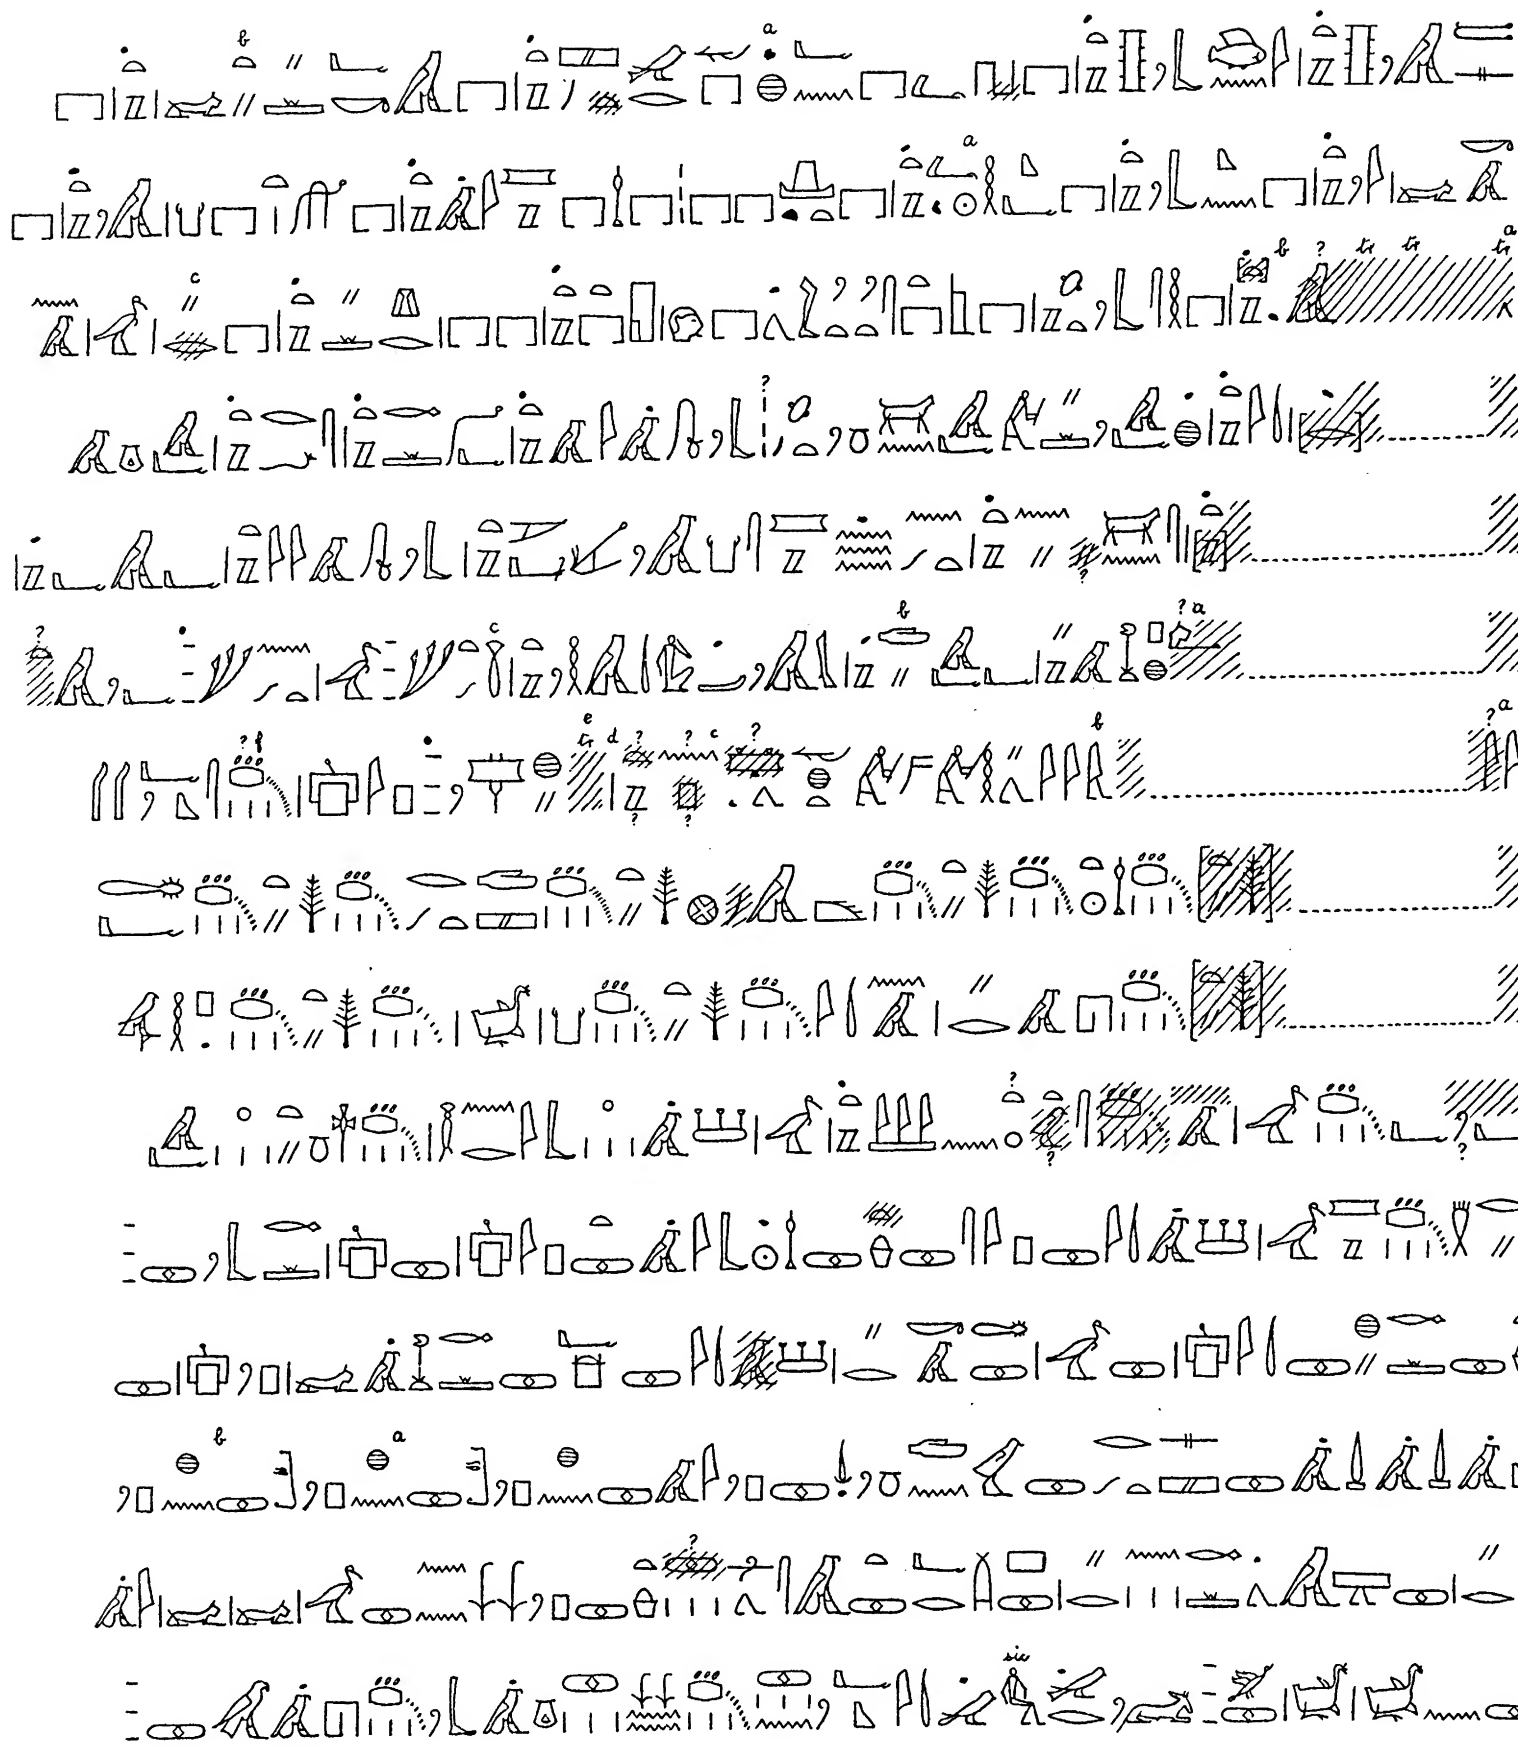
Notes. 4,1.[a] Perhaps corrected out of mm; ?P.mP is evidently the right reading. 4,2.[a] Clearly not R; Möller thought R very uncertain. 4,3.[a] So Erm. and Möll. [b] Möll. thought this suggestion of mine nearly certain. 4,5.[a] Insert <m> 4,6.[a] So too Erm. 4,7.[a] R tiw Moll.; the following o is certain, but Z extremely doubtful. [b] So too Möll., who said that R Y is impossible; for Z one could of course substitute Z. [c] Möll. thought probable. 4,8.[a] So Erm. probably rightly. 4,9.[a] Or F or F? [b] Traces of a vertical stroke before R; perhaps corrected out of Z I. [c] Very uncertain. 4,10.[a] Erm. S, but the photo suggests rather F. [b] Superfluous. [c] Sic for R. 4,11.[a] Probably not D. [b] Or //; the forms are not really distinguishable, see obty, 5,16; Mhty, 6,1. 4,12.[a] Very uncertain. [b] For R as above in l. 10. 4,13.[a] Br. Mus. 21635 shows that Mhn(t) = O is intended; hardly, however, P. 4,14.[a] For this peculiar writing of D see 5,2. [b] <P F> lost in passing from line to line? 4,15.[a] Or //; see above l. 11, note. [b] [b] Very uncertain.



Notes. 5,1. [a] For this title of Koller 3,1 and for a slightly similar form of ⟋ cf. *ib.* 1,8 (see my note on *ib.* 3,1). [b] 𓈖 certain acc. to Möller. [c] Like 𓎛. 5,2. [a] Again like 𓎛. [b] Or 𓇋? [c] For this form of plural strokes cf. below l. 9. [d] Similarly for 𓊪 above 4,14. 5,3. [a] Doubtless so meant; the sign is, however, very like 𓂋 below l. 12, end. 5,4. [a] Corruptly for 𓋴, so too below l. 12. [b] Or 𓎼? 5,6. [a] For the small 𓎛 see l. 8 near beginning. [b] To be omitted. [c] Form obscure and doubtful; probably also partly corrected. [d] So rather than 𓎛; see below 7,7. 5,7. [a] Certainly so and not 𓀀. [b] Or 𓎛? hardly 𓎛. [c] Somewhat similar form of 𓈙 (not 𓈖) of below 6,15. 5,8. [a] Doubtless for 𓂝; the same corruption found in 𓊪𓇋𓈙𓈖𓂝 6,2 where 𓂝 is for 𓂝; see too elsewhere Möller, Pal. II, no. 178. 5,10. [a] Or just possibly 𓀀𓈖. 5,11. [a] Or 𓋴. [b] Made like 𓏺𓏺𓏺. 5,12. [a] For 𓋴 as above l. 4. 5,13. [a] So for 𓁐, confirmed by Möller. 5,14. [a] Or 𓋴; abnormal form. [b] A correction. 5,15. [a] Dittography. [b] Without point. 5,16. [a] Doubtless so intended, but not different from 𓋴.

THE GOLÉNISCHEFF ONOMASTICON

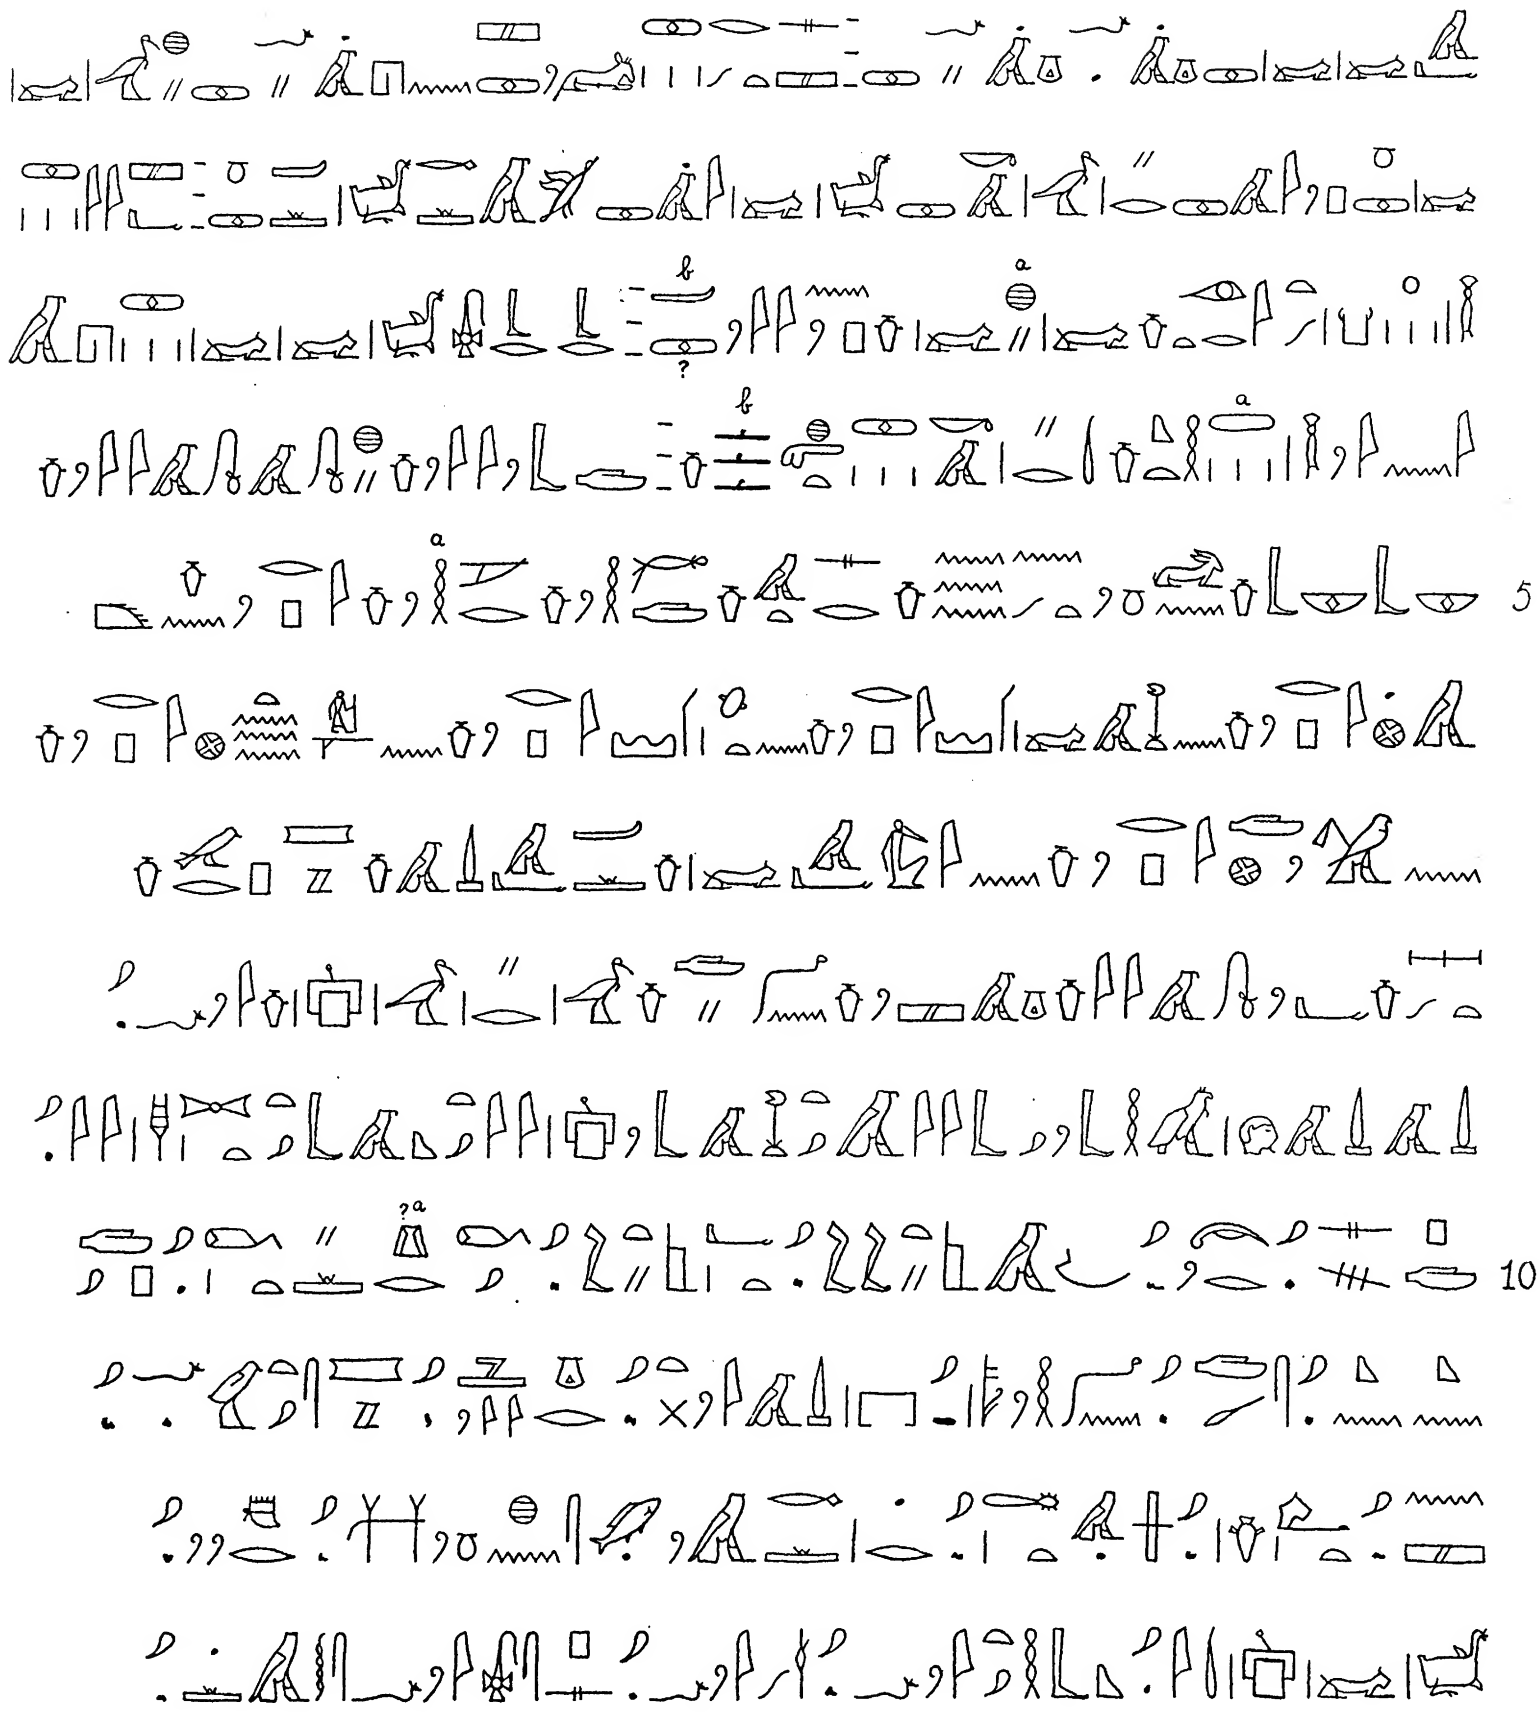
Page 6



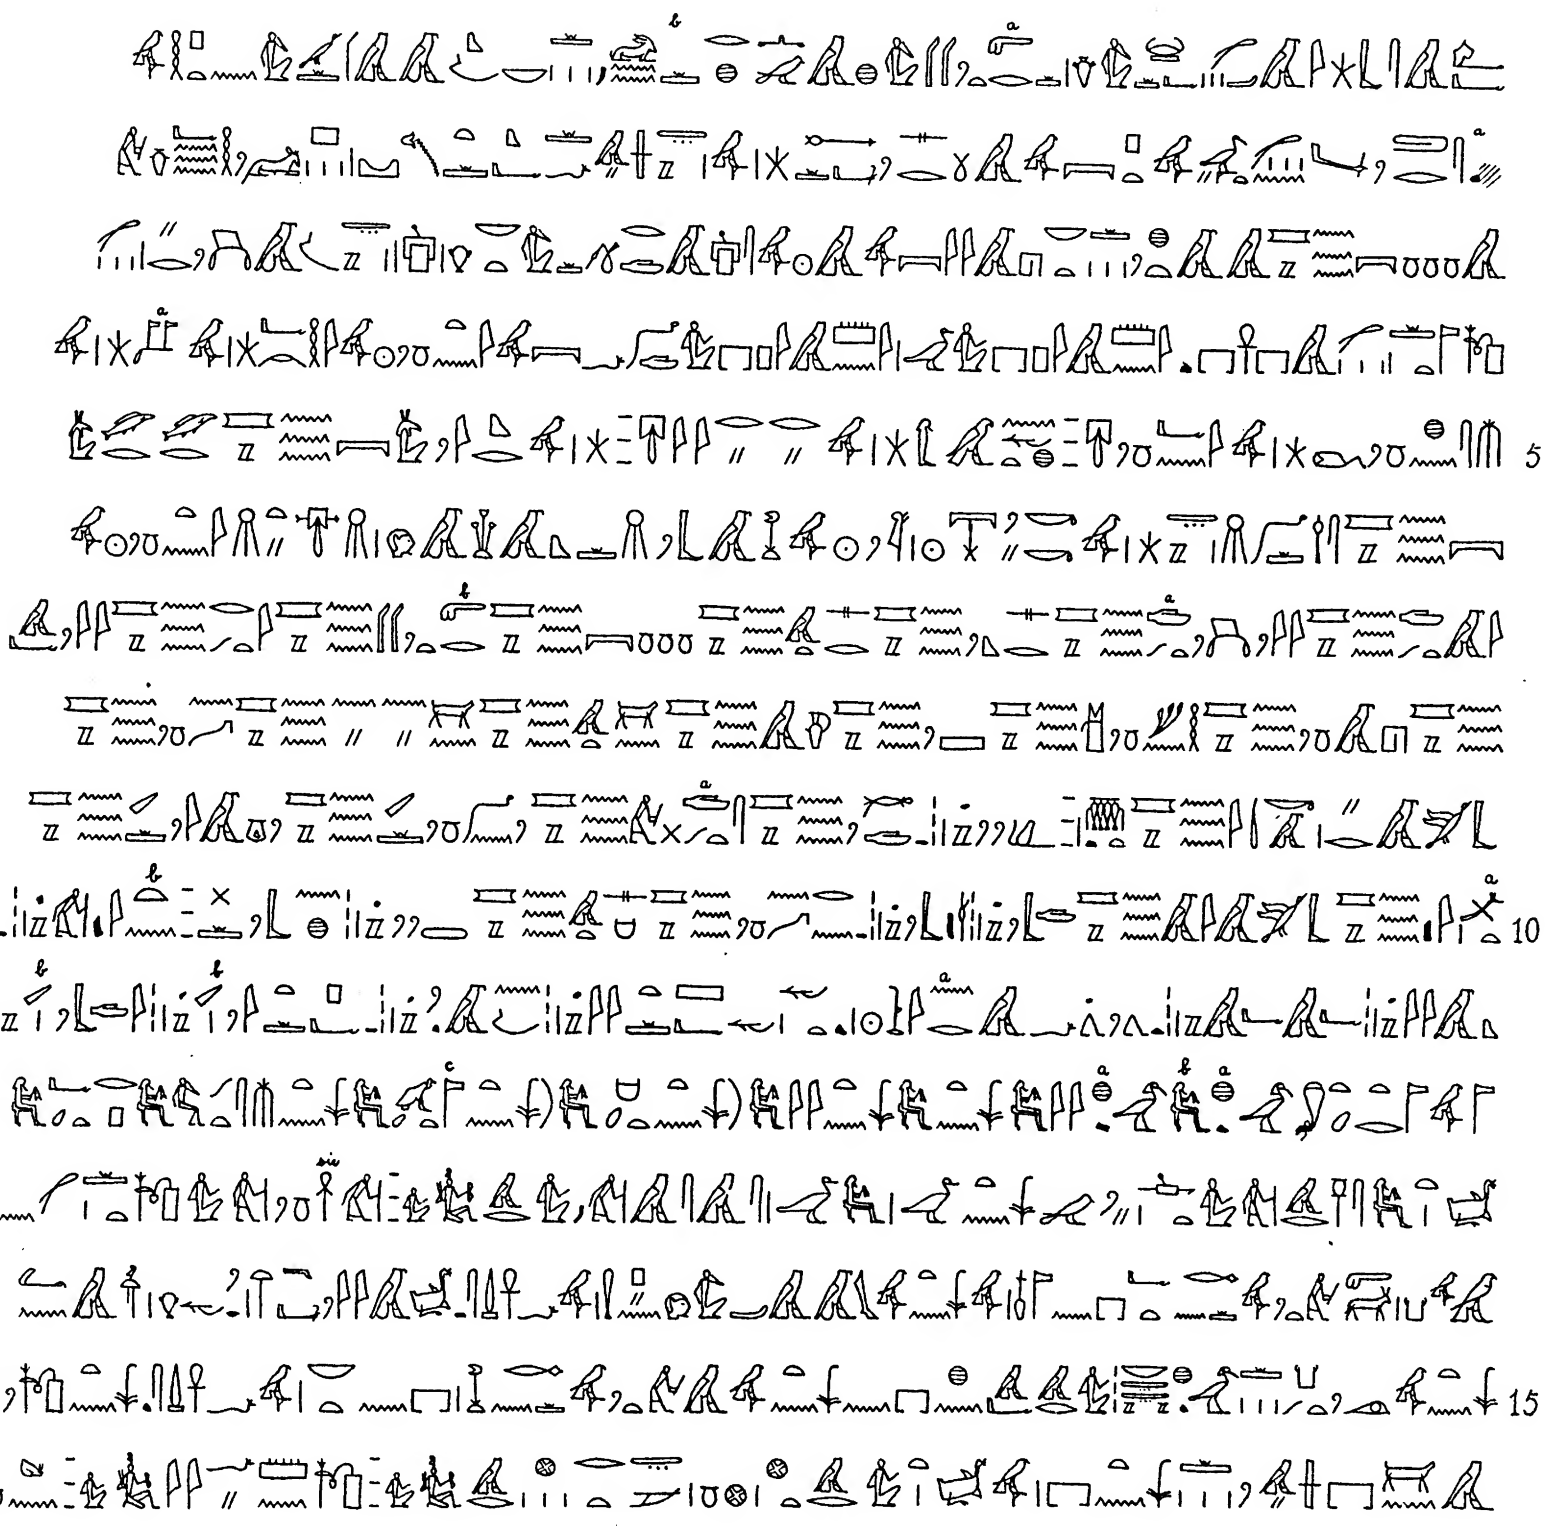
Notes. 6.1 a. The sign above ⊜ (or ○?) is probably only a space-filler, as in 𓂋𓏏?𓂋⊜ l. 4 below. b Or 𓏏. 6.2 a. For 𓎛 see above 5,8, note a. 6.3 a-b. Undeciphered traces. c. Not 𓏏; Möll. thought 𓏏 probable. 6.6 a. So Möller conjectured. b Or 𓏏, see above 4,11, note b. c. A rather abnormal form. 6.7 a. These signs appear to belong to this line. b. So too Möller. c-d. So suggested by photo; for ○⊼□? e. The traces do not seem to resemble 𓏏. f. Möll. "unsicher". 6.13 a-b. Mere dittography?

THE GOLÉNISCHEFF ONOMASTICON

Page 7



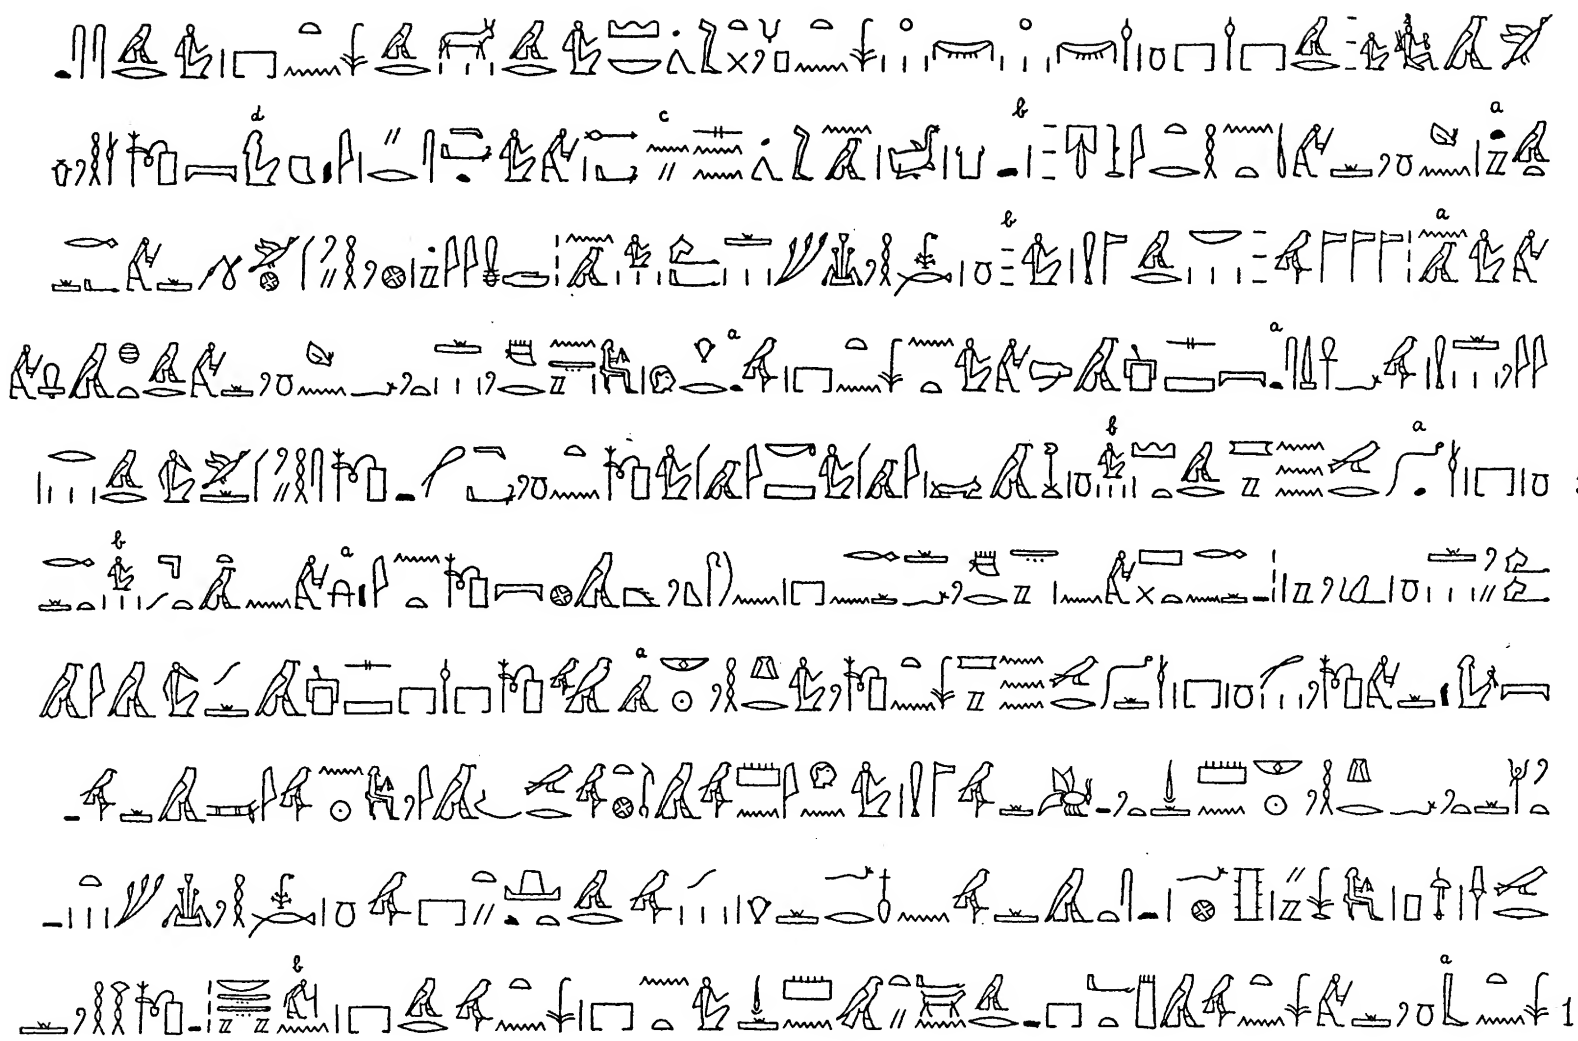
Notes. 7,3.[a] // not certain. [b] Or (see Ch. B. VII, rt. 7,12, note [b]) or ? 7,4.[a] Or ? [b] So for under influence of . 7,5.[a] Badly made but hardly or . 7,10.[a] The form differs from that in 5,14.15; 6,3.

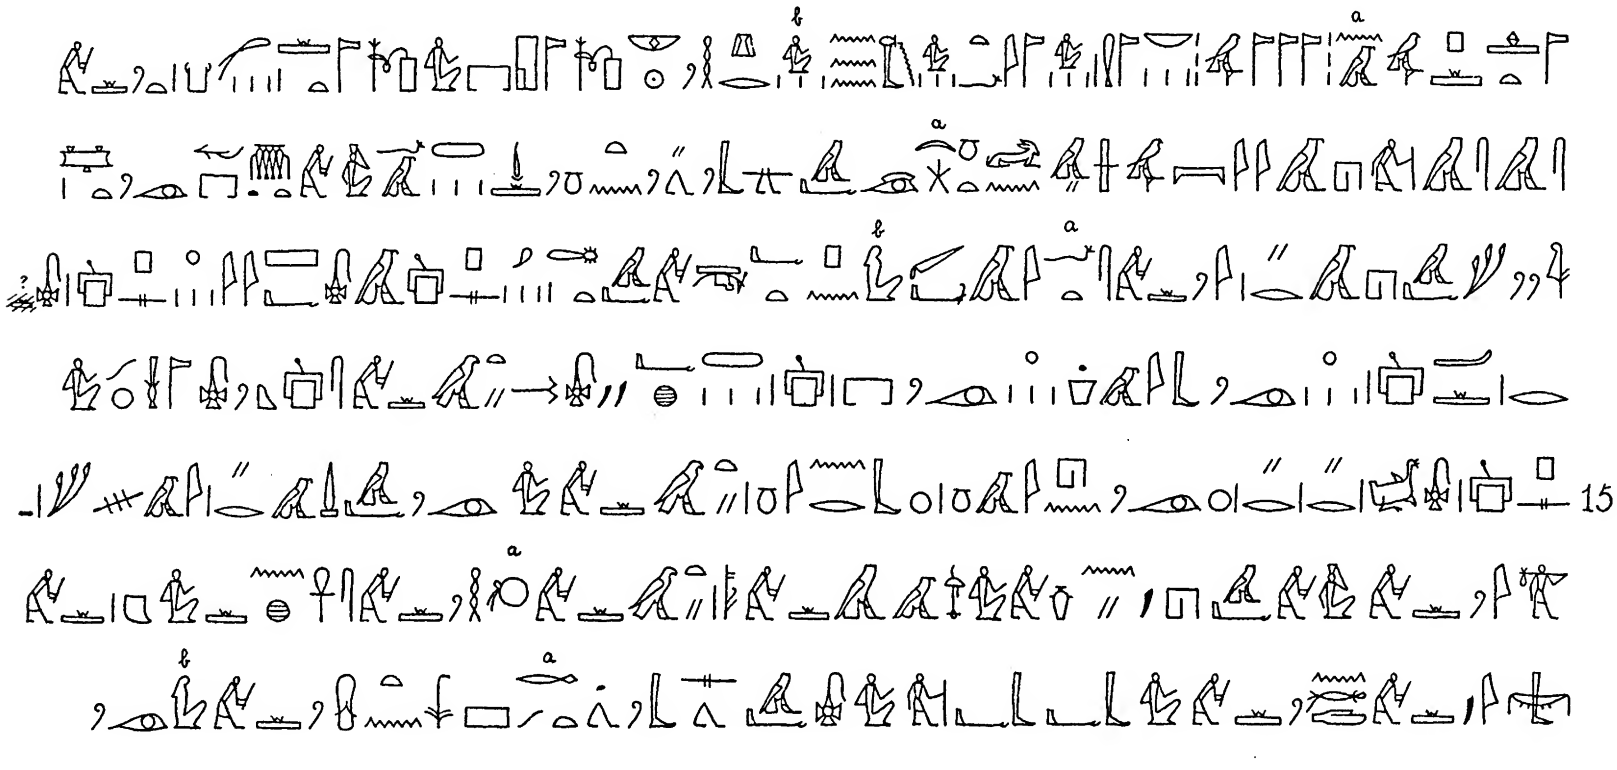


Notes. 1,1[a] Might also be transcribed . The sign below has been widened to match it, and the following sign correspondingly shortened; so too below 1,7. [b] . 1,2[a] As below 1,9. 10 (bis), 11 (quater), 15 etc. apparently with much the same value as the earlier verse-points. 1,4[a] . 1,7[a] . Or ? The same group is used in this line both in *ỉ:dt* and in *ỉ(t)r*. [b] See above 1,1, n.[a] 1,9[a] Value fixed by the following determinatives. 1,10[a] . Conventionally transcribed with the L.-E. hieroglyph that replaces . [b] lengthened to correspond to mm below. 1,11[a] . Hardly . [b] The lower sign abbreviated out of the still recognizable in *wḏnw*, 1,9. 1,12[a] The lower sign is perhaps an abbreviated . [b] . Conventionally rendered , though strictly this would demand a stroke to the left. So too in Gol. [c] Sic, intrusively taken over from the title *mwt-nṯr*.

THE HOOD PAPYRUS

Page 2



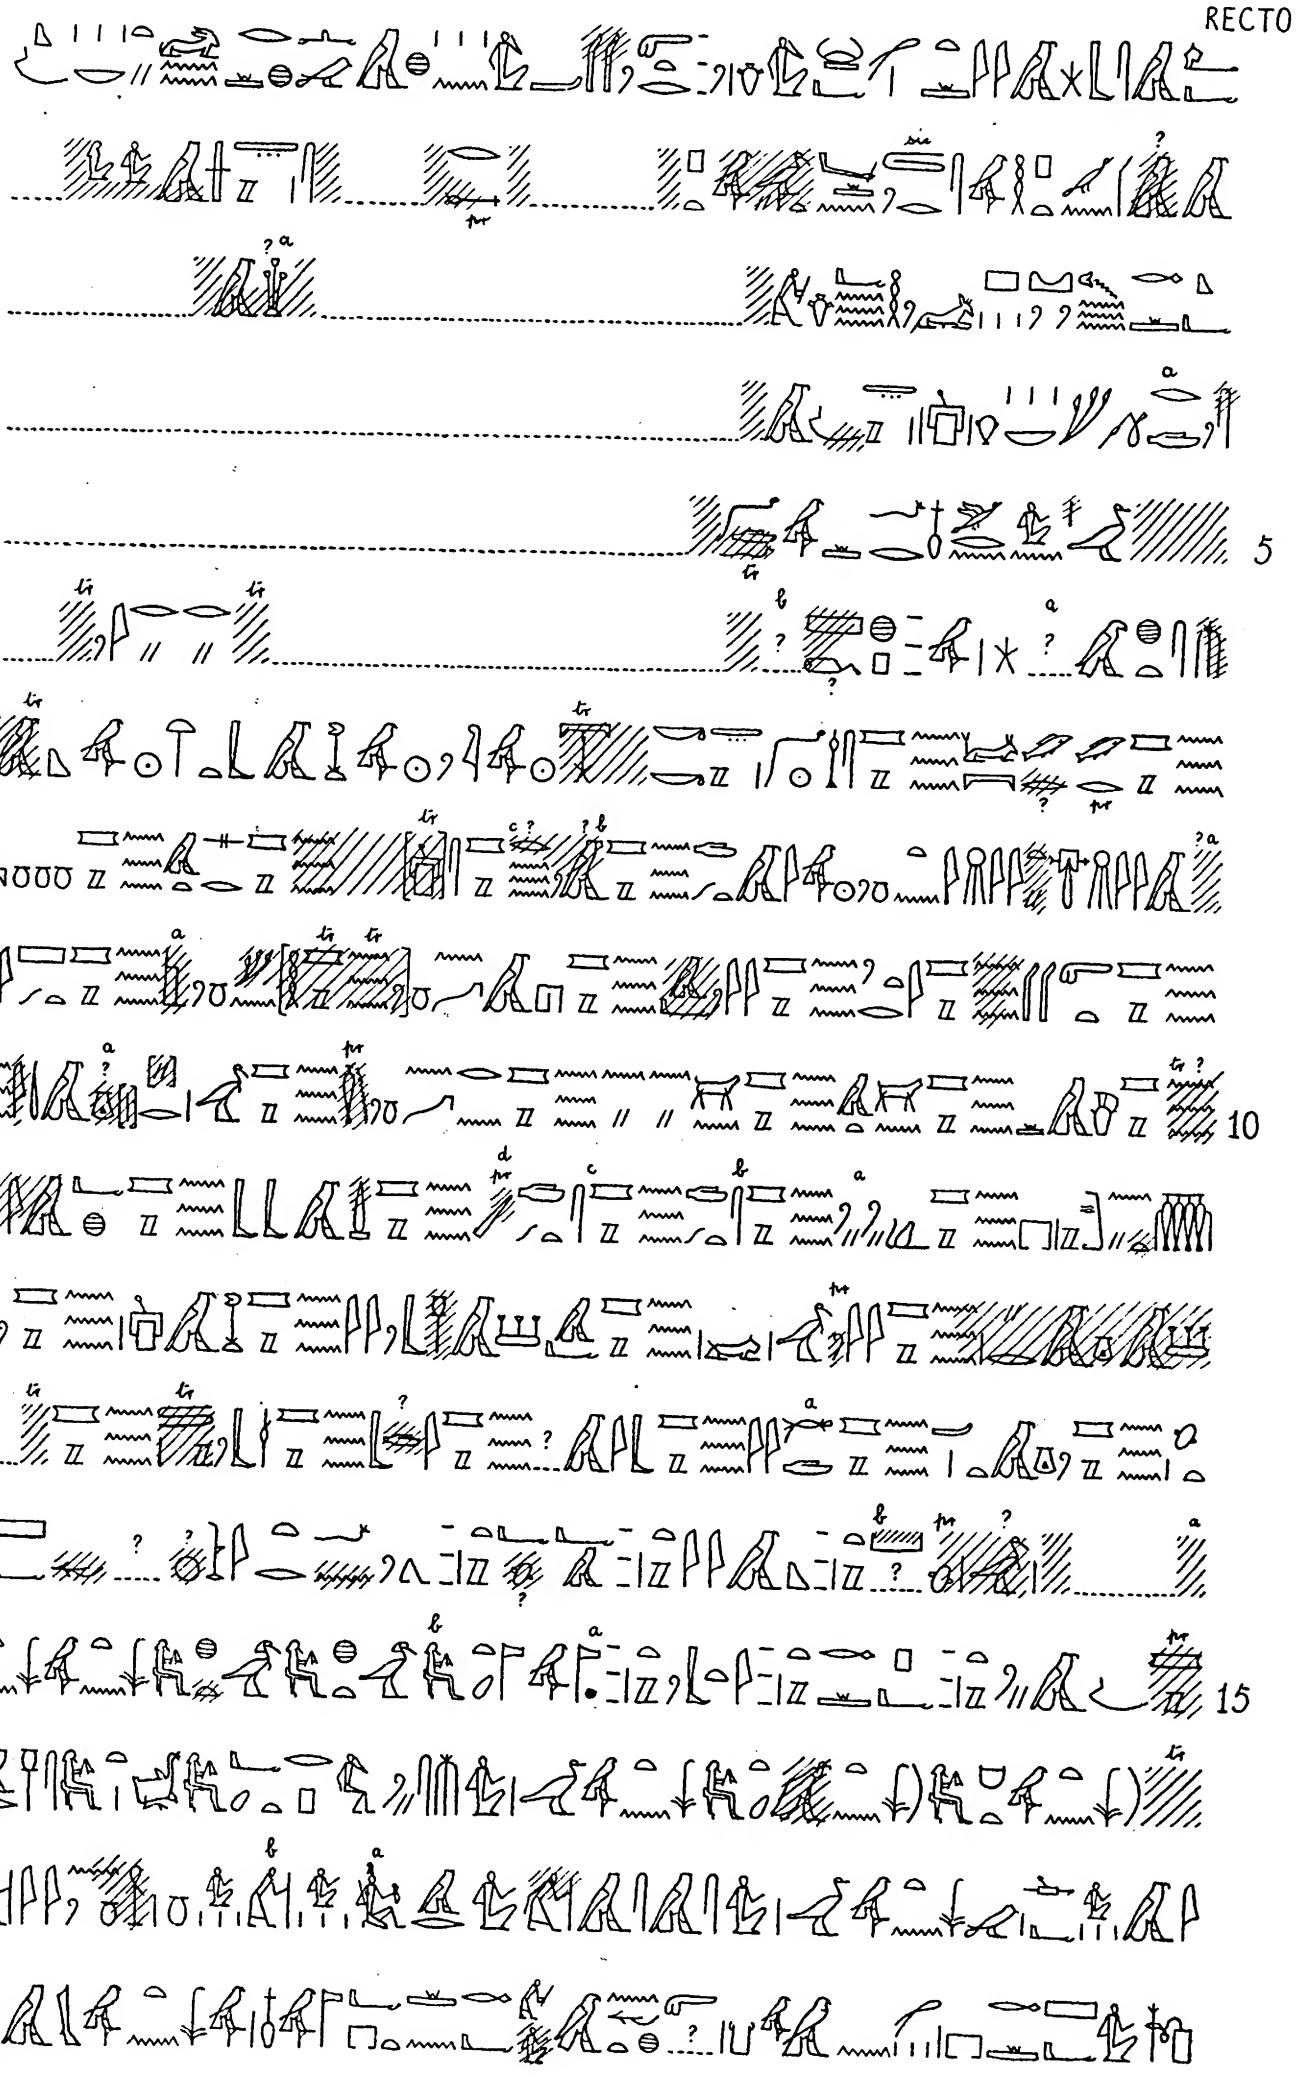


Notes. 2,2.[a] Doubtless best transcribed 1Ⅱ, this form being found three times in 1,11. On 1Ⅱ for 1 see my note on Pap. Bh. Beatty XI, vt. 1,2. [b] So, rather than ? For the word-divider see above 1,2,n.[a] [c] ; ligature for , not . [d] With dot wrongly for . 2,3.[a] ; so much shortened for . [b] . For this shortening of see Gol. 2,1, note[c]. 2,4.[a] On this word-divider see above 1,2, note[a]. Other exx. 2,6.6. 8(bis). 9. 10(bis). 2,5.[a] ; for . [b] ; so wrongly for . 2,6.[a] . [b] ; much abbreviated. 2,7.[a] ; Gol. has . 2,10.[a] ; can hardly be anything else. [b] . 2,11.[a] As before in l. 3, see there note[a]. [b] Much shortened. 2,12.[a] Sic, with borrowing from ꜣbd "month" of Wenamūn, 1,31 2,13.[a] Or . [b] With dot for as above 2,2, note[d]. 2,16.[a] . 2,17.[a] . [b] With dot for as above 2,2,13.

THE LONDON LEATHER ROLL

recto, beginning

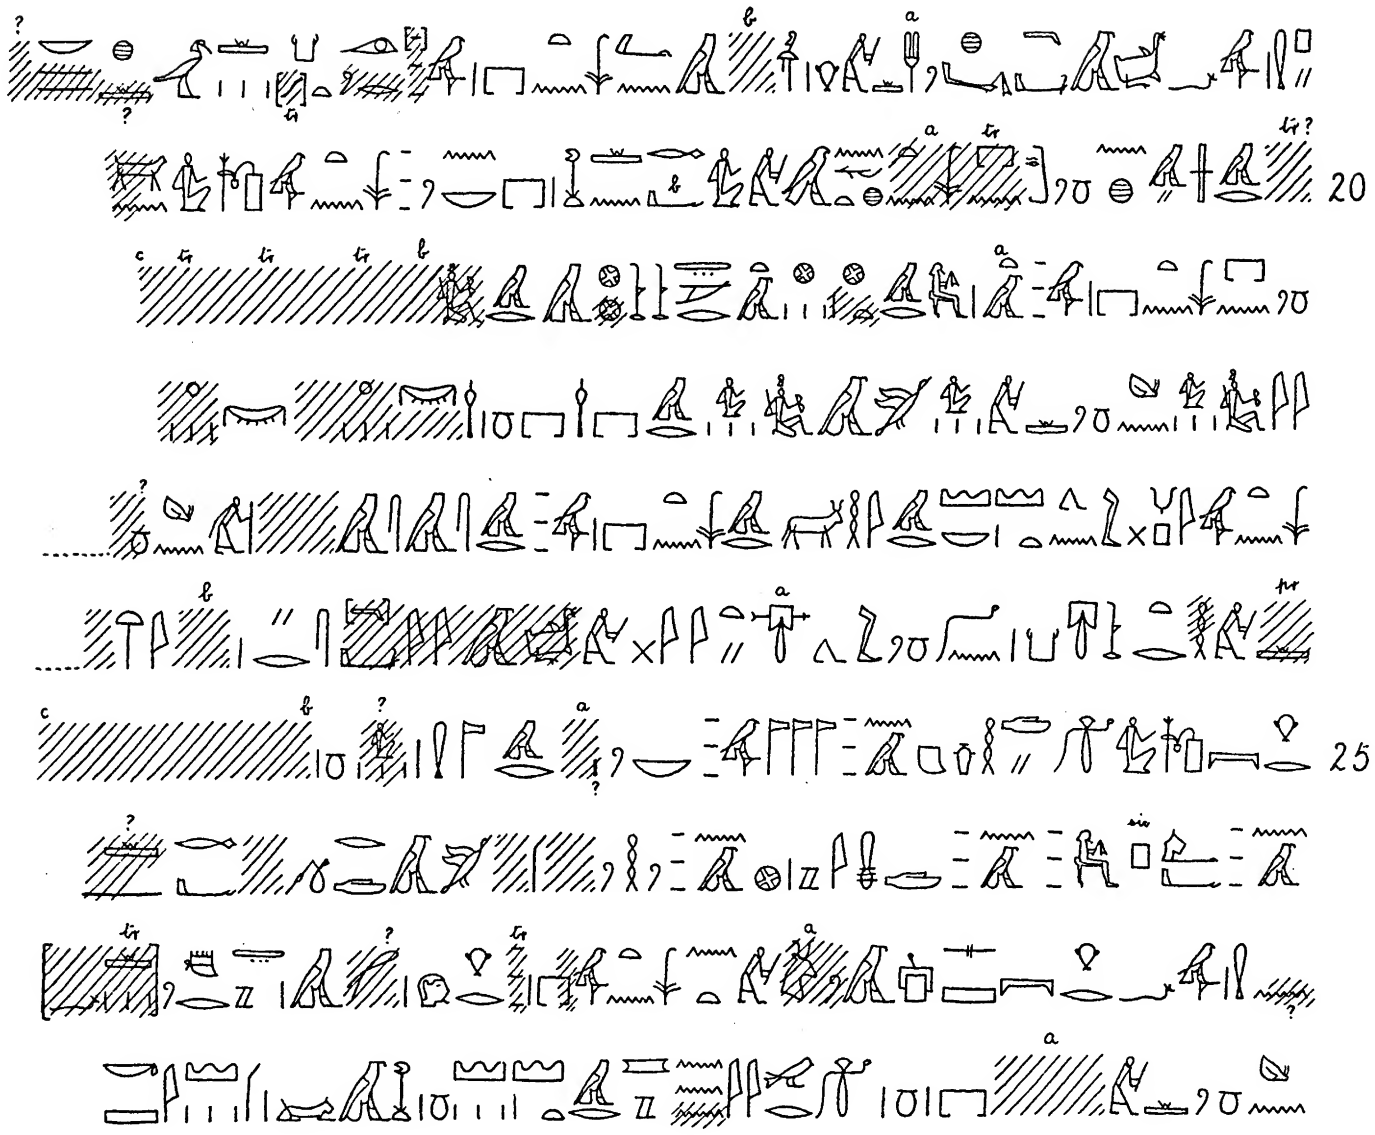
RECTO

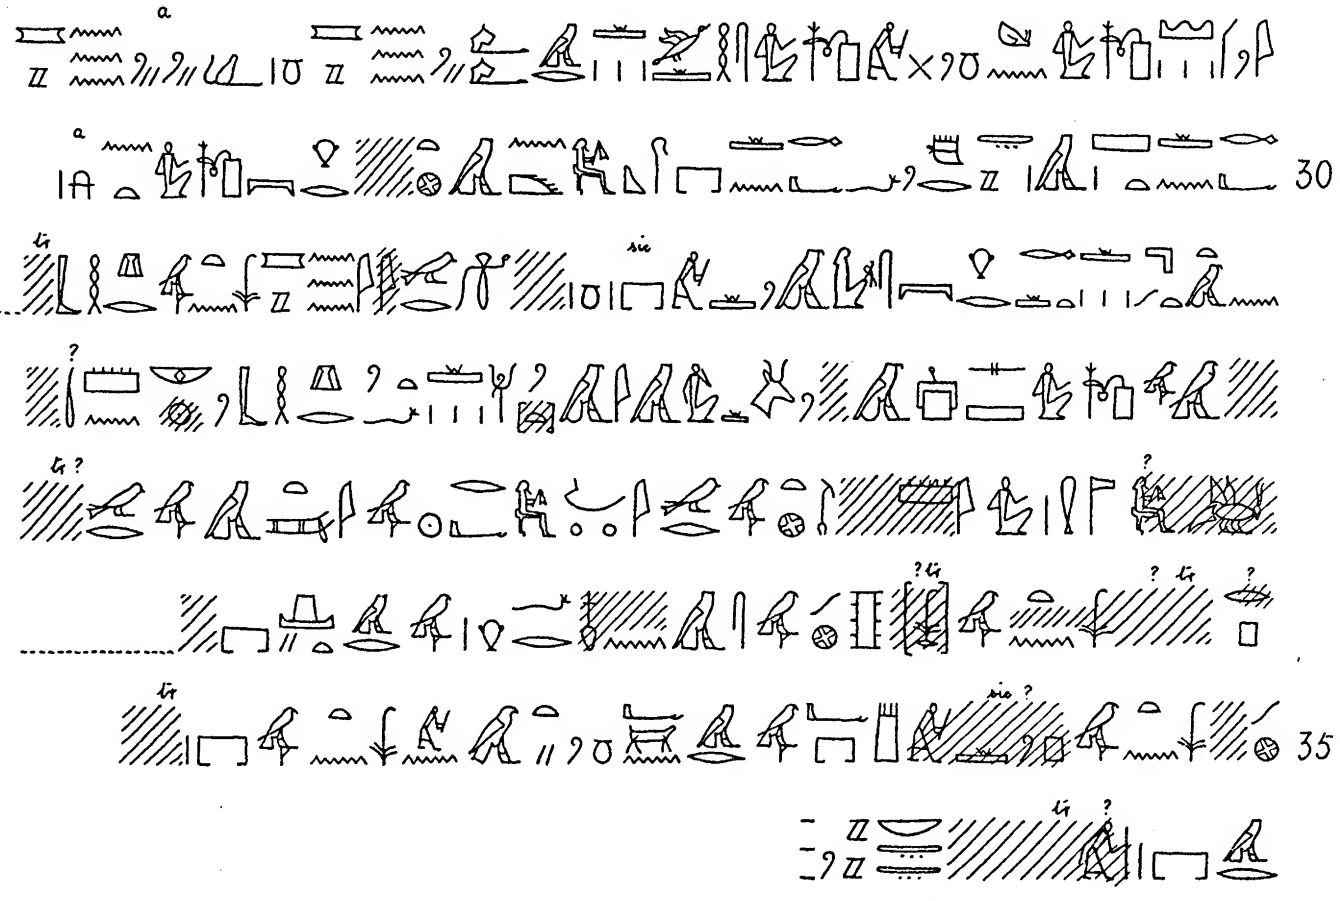


Notes. 3.[a] . 4.[a] badly made almost like . 6.[a] . Perhaps for , though rather different from the forms below ll. 15-16. [b] ; cf. note.[a] 8.[a] It is not clear whether stood here or at the end of the preceding line. [b-c] Very doubtful, not ; seems possible, anyhow not . 9.[a] Apparently so for . 10.[a] Not nor . 11.[a] . Thus always in this MS. [b-c] Substituted wrongly for of Hood. [d] . 13.[a] . 14.[a-b] Very indistinct traces not reconcileable with the texts of Gol. 15.[a] Does the dot here serve as a verse-point? See Hood 1,2, note.[a] [b] . For this sign see in the text to Gol. 17.[a] . [b] Without hinder arm.

THE LONDON LEATHER ROLL

recto, continued

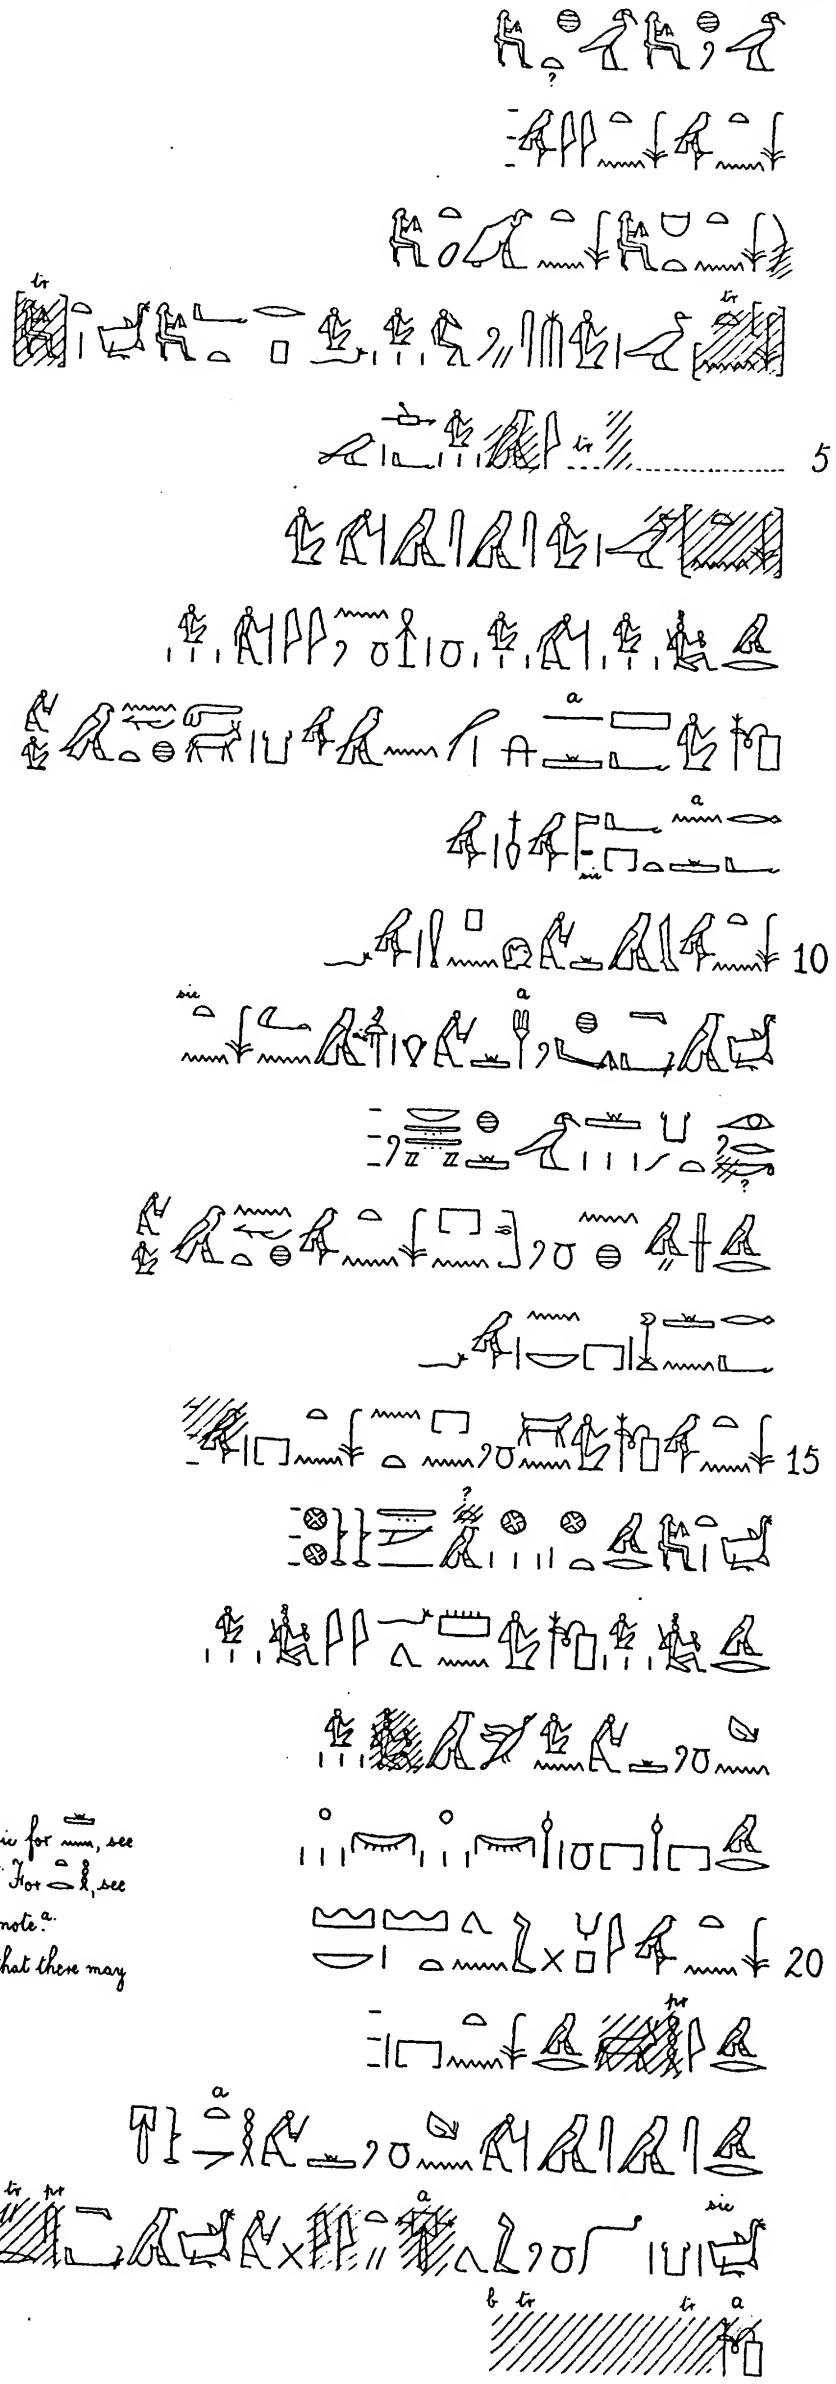




Notes. 19.[a] . [b] Perhaps a defective place in the skin and therefore not inscribed. 20.[a] Confused, but probably as in vs. 13. [b] A correction over //. 21.[a] . A corruption of given correctly in vs. 16. [b] Very black. Traces of signs seem visible throughout, though none of the text of vs. 17 is recognizable here. 24.[a] . [b] Space and traces hardly seem to suit . 25.[a] The traces do not suit . [b-c] Illegible traces. 27.[a] Obscure traces but apparently as in l. 32. 28.[a] Illegible. Not nearly enough room for . 29.[a] See above note [a] on l. 11. 30.[a] .

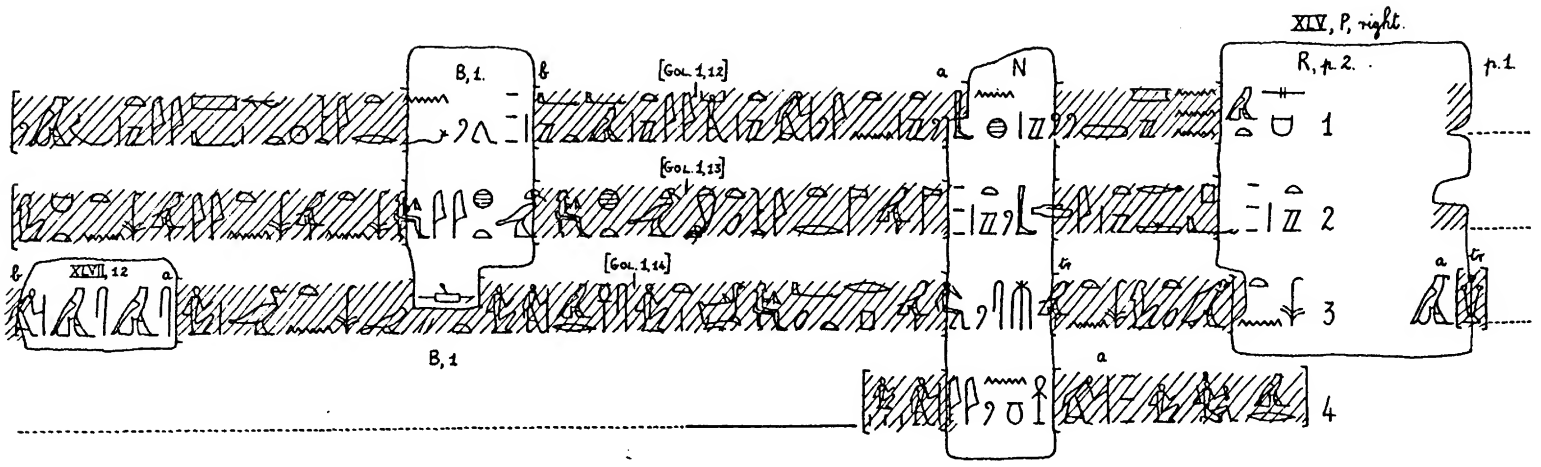
FACSIMILE OF *recto* 28

VERSO



Notes. Vs. 8[a]. Sic. For as rt. 18 shows. Vs. 9[a]. Sic for , see rt. 18. Vs. 11[a]. As in rt. 19, see note [a] thereto. Vs. 22[a]. For , see rt. 24. Vs. 23[a]. Damaged but prob. like rt. 24, see there note[a]. Vs. 24[a-b]. Perhaps washed out. The frame covers any traces that there may be of further lines.

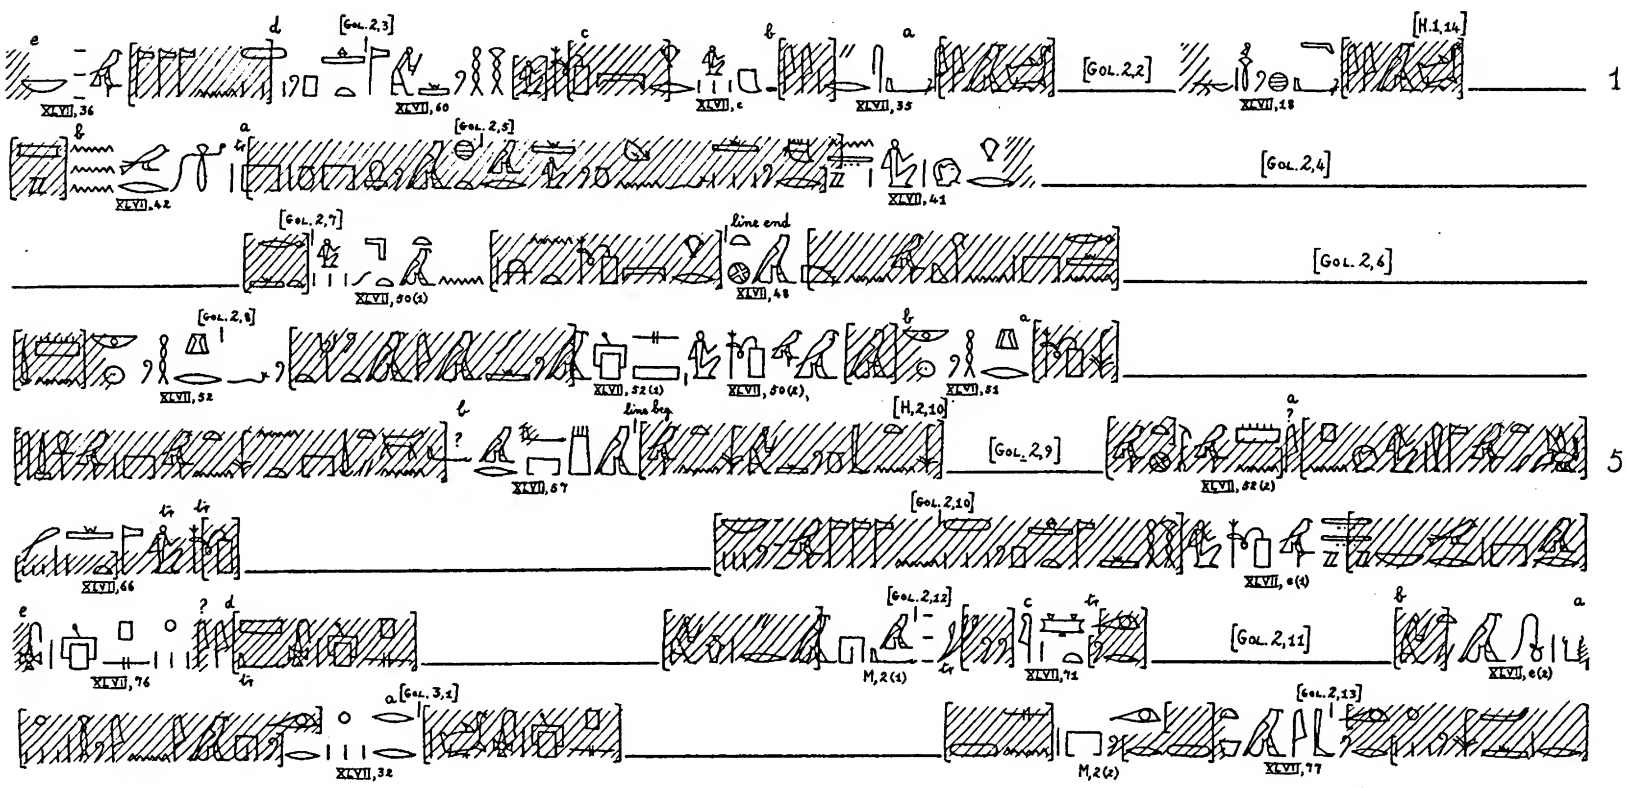
THE RAMESSEUM FRAGMENTS



Notes. 1,3.[a] These signs apparently correspond to the of Col. 1,3. 2,1.[a-b] Even with the shortened writing of *ḫ3yt* suggested, the text of Col. 1,11-12 is too long for the space here available. 2,3.[a-b] This word might, however, possibly belong to Col. 2,10. 2,4.[a] At this point in Col. 1,14 starts an extensive omission, the text being preserved in Hood 1,13-16.

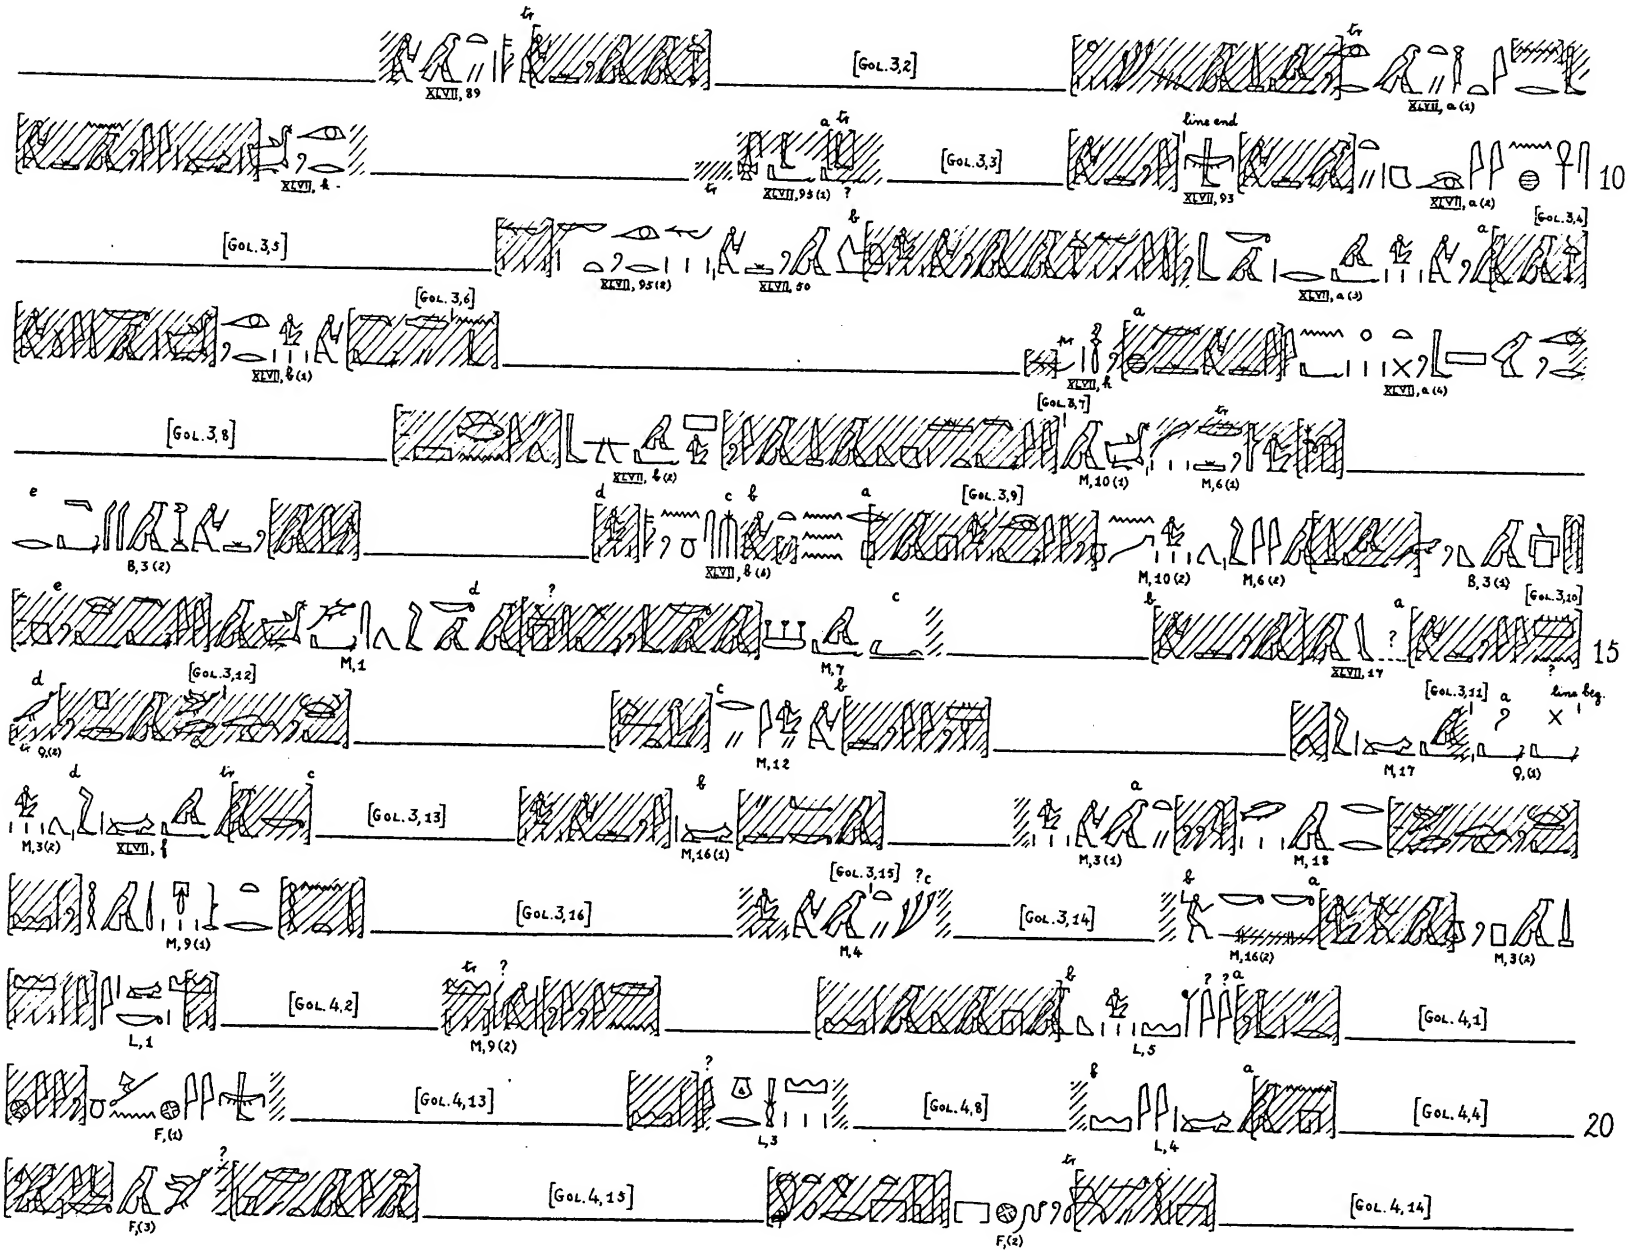
RECONSTRUCTION OF BEGINNING OF PAGE 2

CONTINUATION, IN CORRECT SEQUENCE



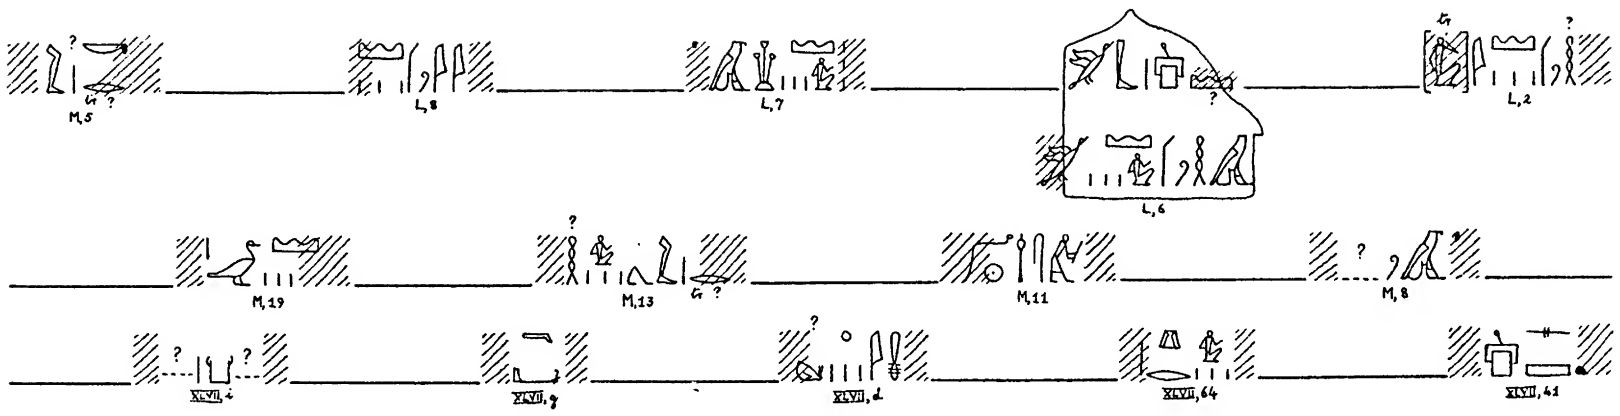
Notes. 1.[a] One expects . [b] Before a trace that cannot belong to P. [c-d] Spieg. wrongly ascribes this fragment to Col. 2,9-10, not having identified XLVII, e. [e] So Spieg. transcribes, but the form of is unusual. This fragm. might possibly belong to Col. 2,10, where a like title occurs. 2.[a-b] *Pr Wsḫ-wr* occurs also Col. 2,7 and the fragment might belong to this. 4.[a-b] *Ḫry-ḥb(t)* occurs again Col. 2,10; possibly this fragment belongs there. 5.[a] Spieg. transcribes , doubtless wrongly. [b] - Col. 2,9 after the omitted words. 7.[a-b] Apparently corresponding to of Col. 2,10. [c] The facsimile shows rather than or . [d-a] Or does this fragment belong to *snty m tr* of Col. 2,13? 8.[a] Placed here by Spieg.; Col. has .

CONTINUATION, IN CORRECT SEQUENCE

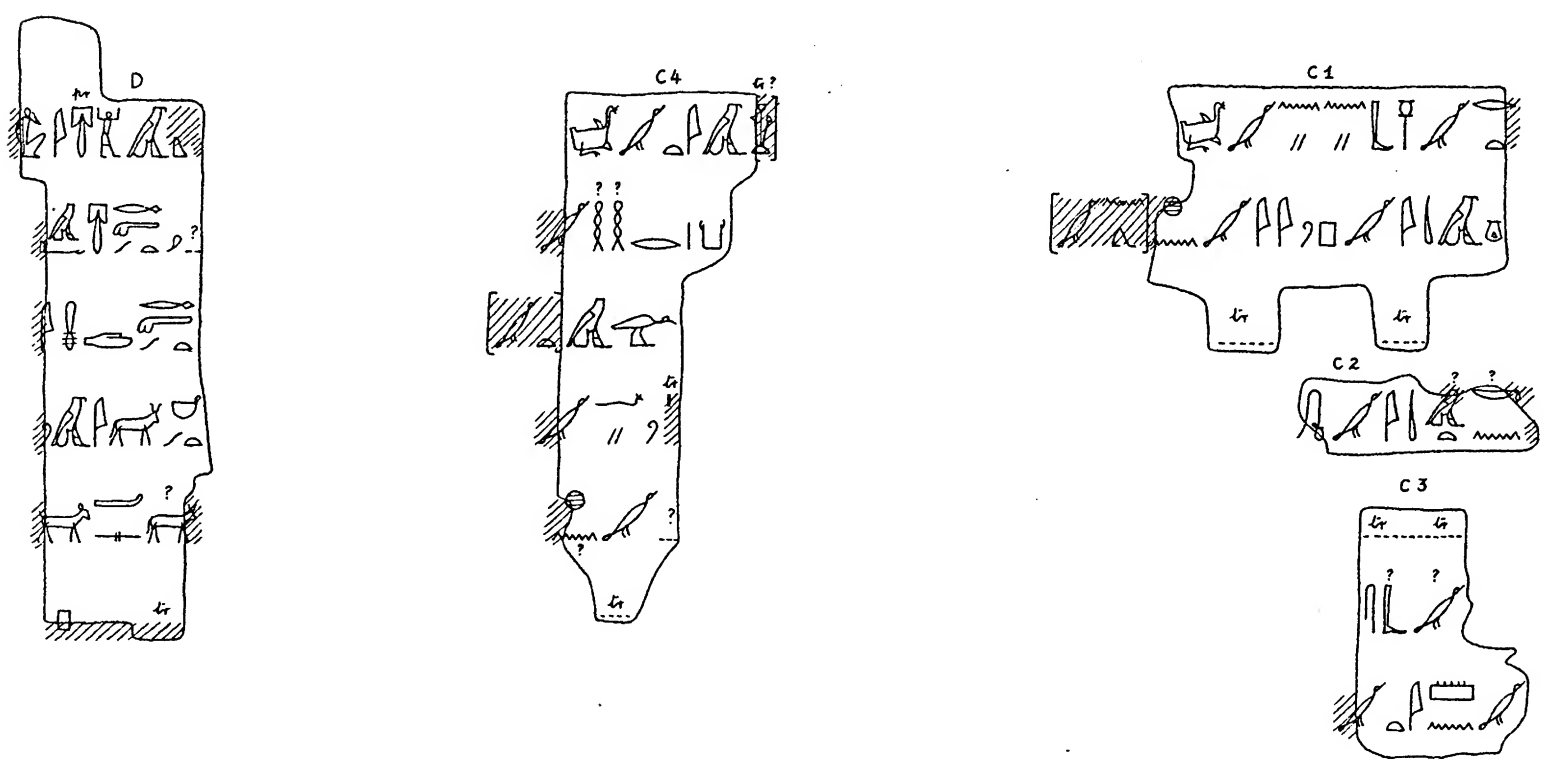


Notes. 10.[a] The facsimile does not confirm the first [sign], but Spieg. suggests this. 11.[a] The first sign is very doubtful. [b] Spieg. rightly read the sign as [sign] (cf. Pl. XLVIII, E 1), but nevertheless placed the fragment in Hood 2,7 = Gol. 2,7, where the reading is [sign]. 12.[a] For the spelling see fragment XLVII, 18. 14.[a-b] The identification of this title assumes that some items of Gol. must have been absent from R, otherwise the lines would be abnormally long. [c-d] As an addition in the interline. [e] So fairly clearly in the fragment, suggesting that [sign] of Gol. 3,10 (the mm at the end of the preceding line can hardly belong to it) was read rmnty. 15.[a-b] The first sign [sign] is obscure. The word could equally well belong to the title whm nsw ḏrḏ of Hood 1,14. [c] A rubric. [d] In Gol. 3,10 this word follows mỉnḫ. [e] Gol. [sign]. 16.[a] [sign], the hieroglyphic examples seem to support the interpretation of [sign] as [sign]. The group [sign] ending the corresponding line of the previous page (see facs.) might possibly belong to ḥrỉ-ḥbt(ỉ) of 2,10. [b-c] Position doubtful since the reading [sign] is not quite certain. [d] The bird might equally well belong to the det. of either of the two participles wḫʿ occurring in this neighbourhood. 17.[a] Position judged from l. 2. [b] Position judged from ḫwḫs in l. 2, see below 18, n.[a-b] [c-d] The trace seems hardly to suit [sign]; it is possible that M, 17 may belong here, and that XLVII, f may belong to Gol. 3,11. 18.[a-b] Ḫ.s ḥs does not occur in Gol., but is quite suitable to this neighbourhood. [c] [sign]; reading doubtful. 19.[a] Spieg. transcribes [sign], but the facs. hardly favours this; the correct position of the fragment is very doubtful. 20.[a-b] Position doubtful owing to the absence of [sign] before [sign].

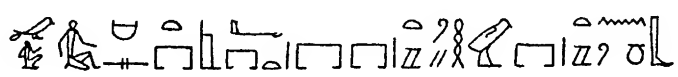
THE RAMESSEUM FRAGMENTS



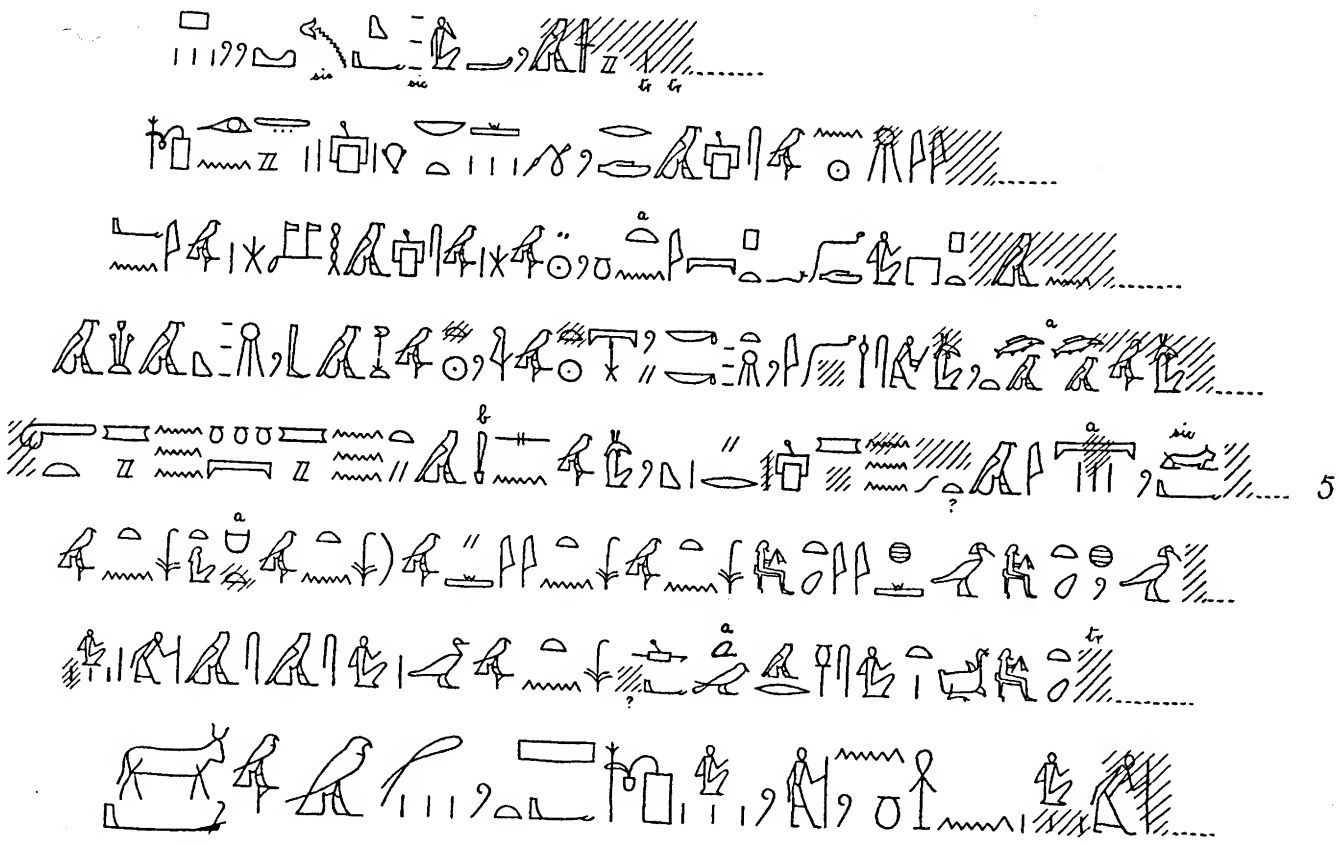
UNPLACED FRAGMENTS



FRAGMENTS OF ANOTHER SIMILAR PAPYRUS?

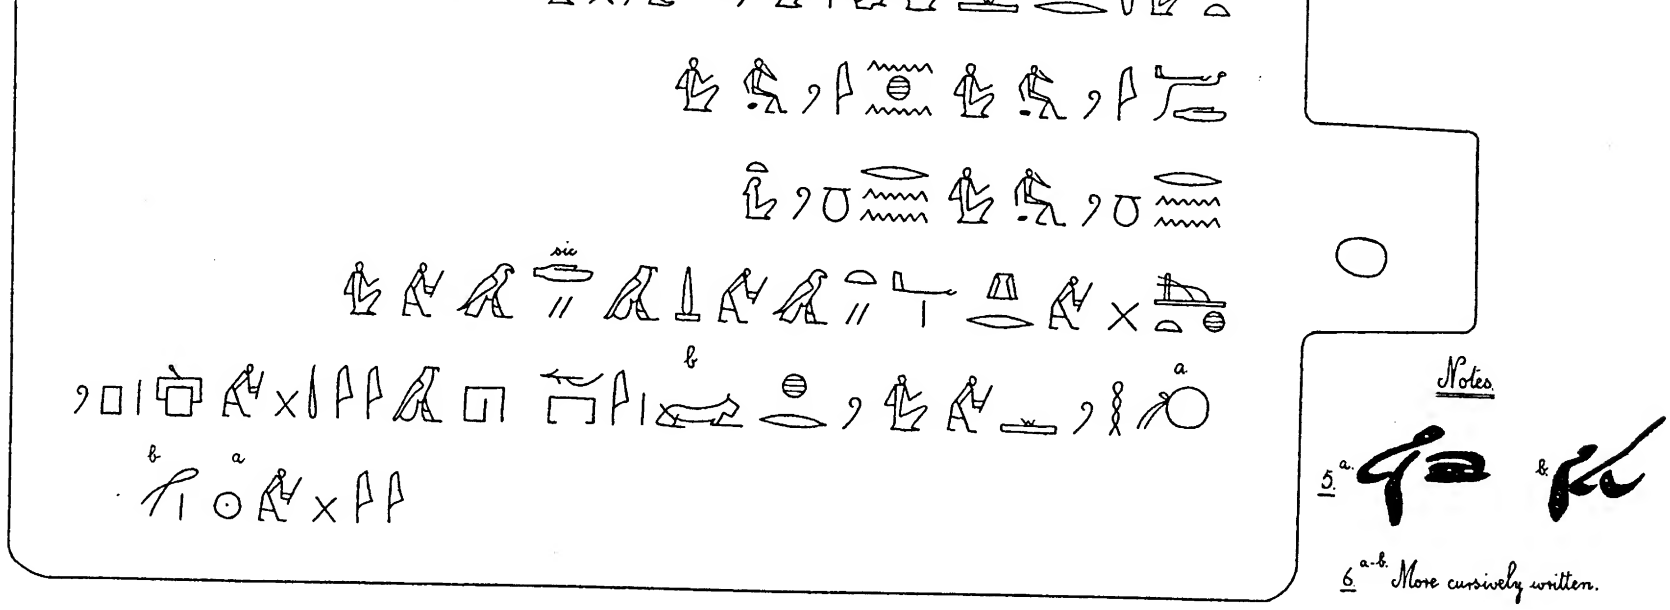


TEXT ON THE *verso* OF THE GOLÉNISCHEFF ONOMASTICON



Notes 3.a ⌓ made large to suit ⌓ below. 4.a The two small 𓂝's are fairly clearly made. 5.a Probably for 𓉐. b Without dot, like 𓂝. 6.a 𓌃, rather a badly made ⌓ than an erroneous 𓈙. 7.a Hardly 𓂧 but rather a deformation of the 𓏼 usual above 𓂧

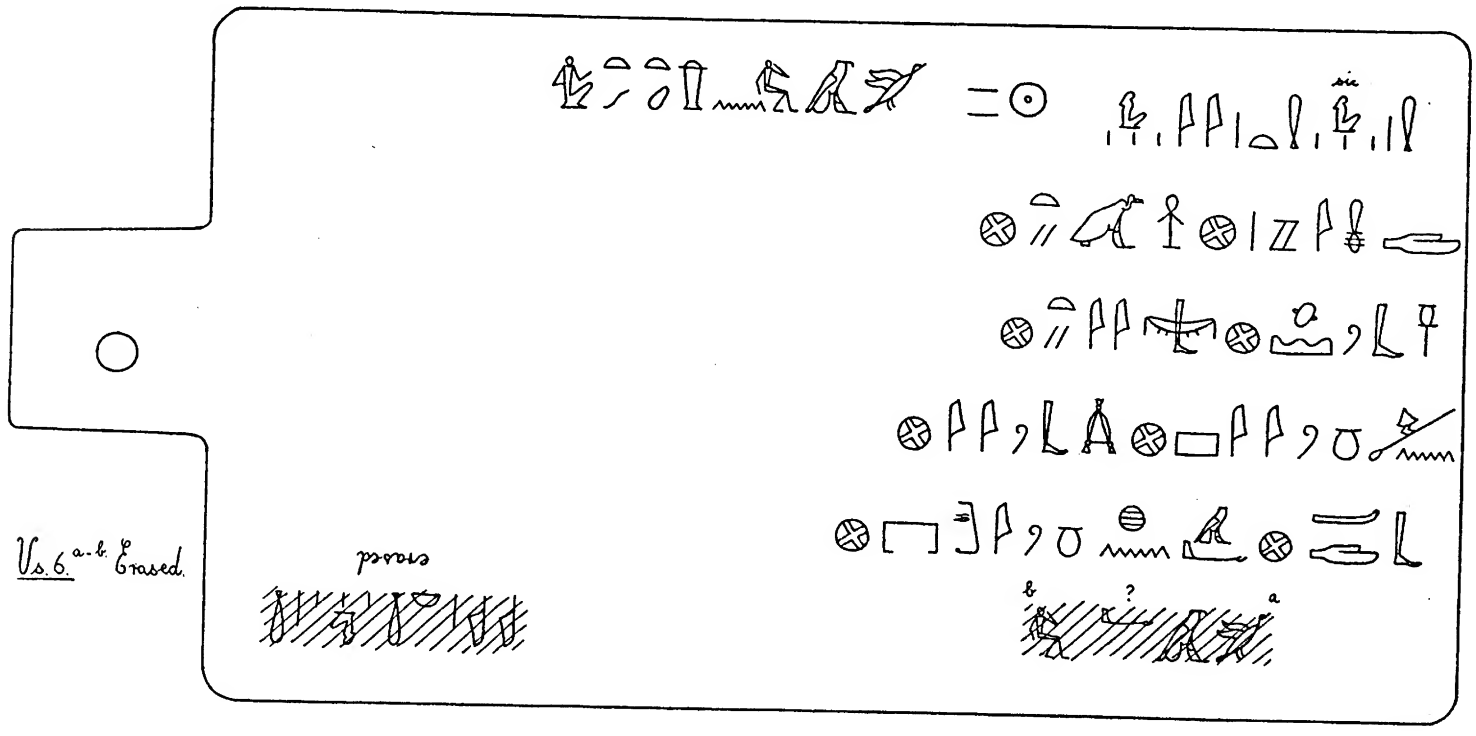
OSTR. CAIRO 67100



Notes.

5.a 𓂋𓄿 & 𓂧

6.a-b More cursively written.



Notes. Vs. 6.a-b Erased.
